

Trust Automation to Showcase Counter-UAS Solutions at AUSA Annual Meeting

Trust's Small-Unmanned Air Defense System (SUADS) provides both fixed-site protection and rapidly deployable defense for key assets and units in combat zones.

SAN LUIS OBISPO, CA, UNITED STATES, October 10, 2025 /EINPresswire.com/ -- Trust Automation Inc., a leader in motion control, power management and electronic systems for defense and commercial applications, will showcase its advanced [counter unmanned aircraft system](#) (C-UAS) capabilities at the Association of the United States Army (AUSA) Annual Meeting & Exposition, October 13-15, 2025, at the Walter E. Washington Convention Center in Washington, D.C.

Trust Automation's Small-Unmanned Air Defense System (SUADS), which provides both fixed-site protection — such as Air Force base defense operations — and rapidly deployable defense for key assets and units in combat zones.

At the core of Trust's C-UAS offering is the Government collaborated [Small-Unmanned Air Defense System](#) (SUADS), which provides both fixed-site protection — such as [Air Force base defense operations](#) — and rapidly deployable defense for key assets and units in combat zones. SUADS delivers layered, adaptable protection designed to detect, track and defeat Group 1, 2 and 2+ UAS threats through scalable, modular, upgradable architecture.

Complementing SUADS is Trust's weapons-mountable GAT™ UAS Jammer, which empowers individual warfighters to directly counter local hostile UAS activity across C2 and GNSS bands. Combined with Trust's broader suite of radio frequency countermeasures, these solutions provide military forces with flexible, mission-tailored options to neutralize evolving aerial threats.

Trust invites defense professionals, military leaders and industry partners to visit Booth 1939 at AUSA 2025 to explore its C-UAS technologies and discuss mission-specific requirements. With

more than 40,000 attendees and representation from over 90 countries, the event is an ideal venue to discover how Trust is advancing the defense against unmanned threats.
