

Synergist Technology Assessed 'Awardable' for Department of War work in the CDAO's Tradewinds Marketplace

AFFIRM, AI Governance & Compliance, has achieved "Awardable" status through the Chief Digital and Artificial Intelligence Office's (CDAO) Tradewinds Marketplace

BOCA RATON, FL, UNITED STATES, October 10, 2025 /EINPresswire.com/ -- [Synergist](#) Technology, a leading provider of AI Governance and Compliance, today announced that it has achieved "Awardable" status through the Chief Digital and Artificial Intelligence Office's (CDAO) [Tradewinds](#) Solutions Marketplace.

The Tradewinds Solutions Marketplace is the premier offering of Tradewinds, the Department of War's (DoW's) suite of tools and services designed to accelerate the procurement and adoption of Artificial Intelligence (AI)/Machine Learning (ML), data, and analytics capabilities. Synergist's AFFIRM is designed to help organizations confidently procure, deploy and manage AI systems across their enterprise. They are used by a wide range of businesses and government agencies.

“

We are honored to be recognized by CDAO's Tradewinds for our compliance-drive approach to AI governance. AFFIRM is purpose-built to give the Department of War continuous mission-scale responsible AI”

Elycia Morris, CEO Synergist

“We are honored to be recognized by the CDAO's Tradewinds Solutions Marketplace for our compliance-drive approach to AI governance,” said Elycia Morris, CEO of Synergist. “AFFIRM is purpose-built to give the Department of War continuous assurance and mission-scale oversight, operationalizing responsible AI at the speed of the mission.” Synergist's video, AFFIRM Solution

for AI Monitoring and Compliance, accessible only by government customers on the Tradewinds Solutions Marketplace, presents an actual use case in which AFFIRM enables centralized

oversight and continuous compliance for AI systems within the Department of War. The video shows practical scenarios such as inventory management, policy mapping to controls, operational AI monitoring, and instant compliance reporting, all purpose built to empower faster mission deployment for DoW AI programs. Synergist also offers high-side government platforms as a service.

AFFIRM stands out by enabling Continuous Authority to Operate (cATO) capabilities, supporting dynamic risk detection, real-time compliance verification, and role-based access controls. The platform's compliance first design is aligned to DoW Responsible AI Framework (RAIF) tenets, including those established by the Army and Navy, while mapping to NIST SP 800-53 and the DoW's own AI RMF.

About Synergist Technology: AFFIRM by Synergist is a flagship Software-as-a-Service (SaaS) platform designed to help organizations govern and monitor artificial intelligence. At its core, AFFIRM functions as an AI Management System, allowing users to track and evaluate historical test results generated through both custom and prebuilt AI performance evaluation prompts. In addition to its AI monitoring capabilities, Affirm includes a fully integrated Governance, Risk, and Compliance (GRC) toolset, built to align AI systems with evolving regulatory requirements at the state, federal, and international levels. Together, these capabilities empower customers to maintain transparency, accountability, and trust in their AI programs from development through deployment. About the Tradewinds Solutions Marketplace: The Tradewinds Solutions Marketplace is a digital repository of post-competition, readily awardable pitch videos that address the Department of War's (DoW) most significant challenges in the Artificial Intelligence/Machine Learning (AI/ML), data, and analytics space. All awardable solutions have been assessed through complex scoring rubrics and competitive procedures and are available to Government customers with a Marketplace account. Government customers can create an account at www.tradewindai.com. Tradewinds is housed in the DoW's Chief Digital Artificial Intelligence Office. For more information or media requests, contact: Success@tradewindai.com
