

Spartan Medical Inc. and Reign Medical LLC. Announce Strategic Partnership

Spartan Medical and Reign Medical join forces with the Clench® System, a fully disposable fixation device for orthopedic and podiatric surgeons.

ROCKVILLE, MD, UNITED STATES, October 14, 2025 /EINPresswire.com/ -- [Spartan Medical](#) and Reign Medical announce their strategic partnership in the Department of Veterans Affairs (VA) and Department of Defense (DoD) Medical Centers worldwide.

[The Clench® System](#) is a fully disposable fixation device for orthopedic and podiatric surgeons used for hand, foot fragments, osteotomy fixation, and joint arthrodesis. Made from a high-grade nitinol material, the Clench System utilizes a unique, built-in ratcheting hub that allows the surgeon to incrementally increase mechanical compression while maintaining control. Delivered sterile with all instruments include, the implant and accessories are ready to use off-the-shelf (OTS) to improve operating room workflow and streamline inventory management. The sterile implants are available in six different sizes, ranging from 7mm x 7mm to 20mm x 20mm, accommodating multiple surgical applications and techniques.

Spartan Medical Inc. a Service-Disabled Veteran-Owned Small Business

"We are honored to serve those who serve our nation. The Clench System represents our

ongoing commitment to improving surgical outcomes and patient care across military and veteran communities. As the designing surgeon, I'm proud to see this innovation making a real difference where it is needed most" said Dr. Andronica Handie, Reign Medical. "Our goal from day one was to deliver best-in-class products to the Federal Government so physicians and their patients would have access to this innovative technology. Spartan Medical has made it possible for our company to fulfill its purpose and honor those who have served and still serve our country", said Nick Brunner, President, Reign Medical.

Vince Proffitt, Founder and President of Spartan Medical declared, "We are leading the way in sterile, single-use technologies across surgical specialties, and this is another terrific device manufactured by an innovative American small business, on National Contracts and ready now for DoD and VA Medical Center Providers."
