

Thermo Dome by Shakes Design Wins Gold in A' Kitchenware and Horeca Awards

Innovative Cast Iron Pot with Panoramic Thermometer Earns Top Honor in Bakeware, Tableware, Drinkware and Cookware Design Category

COMO, CO, ITALY, October 13, 2025 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized accolade in the field of [kitchenware](#) design, has announced [Shakes Design](#) as a Gold winner in the Bakeware, Tableware, Drinkware and Cookware Design category for their innovative work, "Thermo Dome." This prestigious recognition highlights the significance of the Thermo Dome cast iron pot within the kitchenware industry, positioning it as a groundbreaking design that showcases exceptional craftsmanship and functionality.

The Thermo Dome cast iron pot's unique design aligns with current trends in the kitchenware industry, addressing the need for precise temperature control and enhanced user safety. By integrating a panoramic thermometer into the lid handle, the pot allows home chefs and bakers to monitor cooking temperatures without opening the oven, preserving heat and energy. This innovative feature, combined with the pot's recycled iron construction and durable enamel finish, makes it a practical and sustainable addition to modern kitchens.

The award-winning Thermo Dome cast iron pot stands out in the market with its sleek, functional design that seamlessly blends tradition and innovation. The panoramic thermometer, securely attached to the lid handle, provides clear temperature monitoring from above or through an oven door glass panel, eliminating the need for guesswork or infrared thermometers. The pot also features a hot safe meter, indicating when the lid and handle are too hot to touch,

preventing accidental burns. With its space-saving lid hanger and integrated spoon rest, the Thermo Dome enhances usability and convenience in the kitchen.

The recognition from the A' Kitchenware and Horeca Awards serves as a testament to Shakes Design's commitment to excellence and innovation in kitchenware design. This achievement is expected to inspire the brand's future projects, fostering further exploration and advancement in the field. The award not only celebrates the Thermo Dome's design merits but also motivates the Shakes Design team to continue pushing boundaries and creating products that elevate the cooking experience for passionate home chefs and bakers.

Team Members

The Thermo Dome was designed by a talented team at Shakes Design, including Prompong Hakk, who led the design process, and Siena Gou, who contributed to the product development. Their expertise and collaboration were instrumental in creating this award-winning cast iron pot.
