

# Avere Beauty Offers Advanced Tattoo Removal Services in Pittsburgh

*Pittsburgh-based med spa provides laser tattoo removal treatments using Deka Toro technology at two Pennsylvania locations.*

PITTSBURGH, PA, UNITED STATES,  
October 14, 2025 /EINPresswire.com/ --

[Avere Beauty](#), a leading medical spa provider in the Pittsburgh area, offers comprehensive laser [tattoo removal](#) services designed to help individuals safely and effectively remove unwanted

tattoos. With locations in Lawrenceville and Murrysville, the med spa addresses the growing demand for professional tattoo removal services among beauty and wellness enthusiasts throughout Allegheny County and surrounding areas.

According to industry research, individuals seek tattoo removal for various personal and professional reasons, including changes in personal taste, career advancement considerations, dissatisfaction with tattoo quality, and significant life transitions. Avere Beauty provides specialized treatments tailored to each client's unique needs and skin type.

The med spa utilizes the Deka Toro laser system, designed specifically for tattoo removal across various ink colors, including traditionally challenging shades such as blue, green, and red. The laser technology works by penetrating the skin to target tattoo pigment, breaking down ink particles into fragments that the body's natural healing processes eliminate over time.

"The staff at Avere Beauty is one of a kind! Everyone is down to earth and very informative on anything and everything! From consultations to appointments you are ALWAYS in good hands with the Avere ladies!" said Kayla J., a client of the med spa.

The Deka Toro system integrates cooling mechanisms with precision laser delivery to minimize discomfort during treatment sessions. Most tattoos require between four to ten sessions, depending on factors including color, size, ink type, and skin type. Sessions typically last between 10 to 30 minutes, with six to eight weeks recommended between treatments to allow for complete skin healing and ink particle elimination.

The laser system accommodates tattoos of varying sizes, colors, and depths. Certified technicians at Avere Beauty conduct personalized assessments to develop customized treatment plans for each client.

Key features of the tattoo removal service include:

- Advanced laser technology targeting multiple ink colors
- Customized treatment plans based on individual tattoo characteristics
- Minimal downtime following treatment sessions
- Professional oversight by certified technicians
- Integration of comfort measures during procedures

"The girls at Avere are very friendly and the atmosphere is so cute! They make you feel comfortable for your treatments and help you achieve your goals. I love my results!!" shared Kylie H., another client of the med spa.

Avere Beauty provides flexible options for clients pursuing tattoo removal, including single session treatments and unlimited removal packages. The unlimited package covers treatments until complete removal of the tattoo, regardless of the number of sessions required. Financing options allow clients to begin treatments while managing payment schedules.

The med spa maintains facilities at two locations:

Lawrenceville Med Spa: 3453 Butler Street, Pittsburgh, PA 15201

Murrysville Med Spa: 5100 Old William Penn Hwy, Export, PA 15632

Services extend to beauty and wellness enthusiasts across multiple cities in Pennsylvania, including Pittsburgh, Cranberry, Fox Chapel, Mt. Lebanon, Sewickley, Murrysville, Squirrel Hill, Moon, Upper St. Clair, Wexford, and Greensburg, serving all zip codes within 30 miles of Pittsburgh.

"I had such a great experience here! The staff was incredibly kind and welcoming, and they really made me feel comfortable the whole time. The results turned out amazing—I couldn't be happier with how everything looked. You can tell they put a lot of care and detail into their work. I'll definitely be coming back and recommending this place to everyone!" noted Ally V., a client of the facility.

The advanced laser technology at Avere Beauty safely treats tattoos on most skin types with minimal risk. When performed by experienced providers using appropriate laser systems, the risk of scarring remains very low. The med spa provides detailed aftercare instructions to support optimal healing and results.

Mr. Frank Udavcak, Business Director at Avere Beauty, emphasized the med spa's commitment to creating a comfortable environment for aesthetic treatments, distinguishing the practice from traditional medical spa settings.

Individuals interested in learning more about laser tattoo removal services can visit the med spa's website at <https://www.averbeauty.com/> or contact the facility at +1 949-424-8240. Additional information about treatments and services is available through the med spa's blog at <https://www.averbeauty.com/blog>.
