Since its founding in 2012, Speechy Musings has prioritized high-quality, evidence-based materials that save therapists time and enhance student outcomes. The site serves as a one-stop hub for language, articulation, comprehension, narrative, syntax, and more — all crafted to be engaging, scaffolded, and ready to use.

What Speechy Musings Offers

Diverse Resource Types — From printable worksheets to Boom Cards™, themed units, AAC implementation toolkits, data collection forms, and goal-linked resources.

Research-Supported & Student-Centered — Materials designed to teach skills (not just quiz them), using visuals, scaffolding, and differentiated levels.

All Access Pass — A subscription option granting immediate access to the full library of resources, allowing SLPs to plan without limits.

Templates & Organizational Tools — From therapy planning, session organization, progress monitoring, to data tracking, Speechy Musings offers tools to streamline daily workflow.

“SLPs often juggle caseloads, paperwork, and creative lesson demands,” says Shannon, founder of Speechy Musings. “My mission has always been to lighten that load — by creating tools that are ready to run, backed by research, and truly helpful in therapy sessions.”

Why It Matters

In school and clinical settings nationwide, SLPs face tight schedules, diverse student needs, and increasing demand for measurable outcomes. The ready-made, scaffolded resources at Speechy Musings empower therapists to spend more time teaching and less time planning.

User feedback underscores this impact. One SLP shared: "I've legit used these materials for almost every language session so far this year — versatile and well-made."

Availability & Growth

All resources are accessible via the Speechy Musings website. The All Access Pass is especially popular with therapists aiming for comprehensive planning flexibility.
