

Salerno Auto Introduces Rental Division to Serve NYC and Long Island Drivers

NEW YORK, NY, UNITED STATES,
October 14, 2025 /EINPresswire.com/ --

A neighborhood-based rental service has launched in Williamsburg to provide New York drivers with clean, road-ready vehicles without the delays and fees typical of national rental chains. [BK Car Rentals](#), powered by Salerno Auto, now offers professionally serviced all-wheel-drive (AWD) vehicles for short-term and long-term use through Turo, serving Brooklyn, Queens and Long Island with local pickup and delivery.

The company was created for drivers who need fast access to dependable transportation without leaving the borough. With pickup in Williamsburg and delivery in parts of Queens and

Nassau County, BK Car Rentals provides a practical option for renters searching online for car rental near me, Brooklyn car rental, Williamsburg car rental and Turo Brooklyn. Vehicles may be reserved at [BKCarRentals.com](#), which redirects to its verified Turo listings for secure booking.

Unlike anonymous marketplace hosts or corporate rental counters, the company is anchored by an established automotive service business. Every vehicle is inspected, serviced and prepared by Salerno Auto, which has operated in Williamsburg since 1959. The company maintains its fleet in-house rather than using third-party vendors or volume fleets. Vehicles are maintained to the same mechanical standards as customer repairs, giving renters a dependable alternative in a market where short-notice cancellations and poor fleet conditions are common.

BK Car Rentals launches amid rising demand for neighborhood rental access across New York City. Residents routinely require vehicles during collision repairs, insurance delays, weekend travel, work assignments, family transportation and medical scheduling. National rental outlets

BK CAR RENTALS

FAMILY-OWNED SINCE 1959

WILLIAMSBURG • BROOKLYN • LONG ISLAND

remain concentrated at airports, leaving limited availability for renters within Brooklyn. By offering local access and responsive service, BK Car Rentals provides a direct solution to that gap.

The company's fleet emphasizes capability and safety over sales features. AWD rentals are prioritized for year-round reliability in city traffic, on highways and in changing weather conditions. Vehicles are made available with documented condition reports and transparent pricing. Renters arriving through LaGuardia or JFK may coordinate nearby pickup on request, bypassing high airport rental surcharges and long counter lines.

Reservations are completed through Turo to streamline insurance, documentation and payment. After booking, renters receive direct instructions from company staff and support for the duration of the trip. The company accepts extended rentals for customers waiting on insurance authorization during body shop work, a growing need as collision repair timelines have lengthened nationwide due to supply issues.

Before each rental, vehicles undergo a multi-point inspection covering tires, brakes, fluids, lights and general driving performance. Interiors and cargo areas are cleaned and sanitized. The company focuses on reliability and function rather than cosmetic presentation, issuing vehicles ready for immediate use. Preparation standards are identical to Salerno Auto's service department procedures.

BK Car Rentals currently serves Williamsburg, Greenpoint, Bushwick, Bedford-Stuyvesant, Crown Heights and East New York, with delivery also available in Ridgewood, Maspeth, Long Island City, Astoria and parts of Nassau County. Expansion throughout Long Island will follow fleet growth and customer demand. The company is also developing a direct booking platform under its own domain to operate alongside Turo, giving renters the choice of marketplace convenience or local service.

The business operates independently and is not affiliated with national rental agencies or franchise brands. It describes itself as a practical service operation built to meet daily transportation needs. Typical renters include New York residents who do not own vehicles, commuters, small business owners, contractors requiring transport to job sites, production crews, and families traveling outside the borough for short-term needs.

New York remains one of the most competitive rental markets in the country, but access inside the boroughs has long been limited by geography, price and availability. Many residents rely on public transit but periodically require vehicles for essential travel beyond subway reach. With sustained growth in rental demand, neighborhood-based fleet access has become a permanent part of the transportation economy. BK Car Rentals was built to meet that role by offering consistent availability supported by mechanical oversight.

Rental availability is based on fleet scheduling. Photos, pricing and current listings are available

on Turo and accessed through BKCarRentals.com. Customer communication is handled by staff directly by phone and email.
