District (MDUSD) has signed a contract with PlanetBids to overhaul its procurement and contract management operations. With the implementation of PlanetBids' end-to-end digital solution for bid, vendor, and contract management, MDUSD is taking a significant step toward enhancing transparency, efficiency, and legal compliance.

PlanetBids will help the District create more comprehensive bids, improve communication and outreach with vendors, and more effectively manage contracts and documentation post-award, with better oversight and visibility. By transitioning to PlanetBids,

MDUSD expects to streamline stakeholder collaboration, track subcontractors and spending allocations, and centralize all procurement-related documentation.

Key benefits of this partnership include:

- Simplified Contract Management and Compliance: PlanetBids will enable MDUSD to automate the development, routing, and oversight of contracts, improving visibility and reducing risk.
- Centralized Communications and Documentation: With all procurement-related activity and communication captured in one platform, the District can eliminate version control issues and streamline follow-ups.
- Streamlined Vendor and Insurance Management: Vendors will be able to self-manage certifications, including uploading insurance documentation through My Insurance, reducing administrative burden on staff.
- Broadened Bid Participation: PlanetBids' easy-to-use vendor portal ensures wider reach while maintaining compliance with public contracting requirements.
- Accelerated RFP Development: With the Bid Spec Library, procurement staff can access templates and examples from other agencies to simplify and expedite the drafting process.
