

Airbus Defence and Space and Omnitronics Sign MoU to Advance Interoperability in Critical Communications

OSBORNE PARK, WA, AUSTRALIA, October 15, 2025 /EINPresswire.com/ -- Airbus Defence and Space and [Omnitronics](#) have formalised a strategic Memorandum of Understanding (MoU) at the Comms Connect Melbourne conference and expo to explore a joint collaboration into next-generation interoperable gateways for mission-critical communications.

The collaboration will focus on developing interoperable gateways that bridge Agnet and TETRA technologies by Airbus with narrowband standards such as P25 and DMR, alongside advanced Omnitronics radio dispatch management systems. The goal: seamless integration and enhanced communications capabilities for mission-critical environments.

Airbus and Omnitronics sign MoU to develop interoperability solutions

“

Together, we will explore innovative ways to improve operational efficiency and safety across multiple sectors.”

John Jordan

Airbus Defence and Space is a global leader in secure, mission-critical communication and collaboration platforms, supporting agencies that demand reliable, intelligent, and secure systems. Omnitronics complements this with decades of expertise in Radio over IP, dispatch systems, and interoperability solutions tailored for mission- and business-critical operations.

“This collaboration represents a strategic step in enhancing

interoperability between different communication systems, a vital factor in mission-critical operations,” said Alain Ruinet, Head of APAC for Public Safety and Security at Airbus Defence and Space. “By combining Airbus’ robust platforms with Omnitronics’ proven technology and expertise, we aim to deliver flexible and reliable solutions tailored to the evolving needs of our

customers.”

John Jordan, CEO of Omnitronics, added: “Partnering with Airbus allows us to extend our capabilities and contribute to next-generation critical communication systems. Together, we will explore innovative ways to improve operational efficiency and safety across multiple sectors.”
