Healthcare Transportation Service Global Market
Report 2025

What Is The Expected Cagr For The [Healthcare Transportation Service Market](#) Through 2025?

The market size of healthcare transportation services has experienced robust growth in the past few years. Its size is projected to increase from \$103.25 billion in 2024 to \$109.41 billion in 2025, indicating a compound annual growth rate (CAGR) of 6.0%. Economic circumstances and insurance coverage have significantly contributed to this historical growth. Other factors influencing this growth include the focus on patient experience and comfort, the transition to value-based healthcare models, the surge in chronic diseases, as well as urbanization and population density.

The Business Research Company

In the upcoming years, the healthcare transportation

service market is predicted to experience robust growth, scaling up to \$143.16 billion by 2029 at a 7.0% compound annual growth rate (CAGR). Factors propelling growth during this future period include the need for specialized vehicles, the spread of telehealth services, patient-centered care enhancement, a surge in chronic diseases, and an emphasis on environmental sustainability. Key trends anticipated during this same period are adjustments to demographic shifts, incorporation of value-driven care, expansion of service options, community health campaigns, and initiatives promoting environmental sustainability.

What Are The Key Factors Driving Growth In The Healthcare Transportation Service Market?

The expected escalation in accidents is set to stimulate the expansion of the healthcare transportation service market. An accident, by definition, is an unforeseen event causing harm, injury, or loss of life, and is never intentional. In the event of accidents, healthcare transportation plays a pivotal role by offering prompt and specialized transit to cater to the medical requirements of those affected. In fact, as per a report by the US-based federal agency for transportation safety, the National Highway Traffic Safety Administration, in August 2022, the early months of 2022 saw approximately 9,560 fatalities as a result of motor vehicle mishaps in the United States. This marked a 7% rise in contrast to the projected 8,935 deaths in the initial months of 2021. Additionally, the fatality rate for the initial period of 2022 climbed to 1.27 fatalities per 100 million vehicle miles traveled, an increase from the projected 1.25 fatalities per 100 million vehicle miles in the early months of 2021. As such, the rise in accidents is poised to spur the growth of the healthcare transportation service market.

What Are The Top Players Operating In The Healthcare Transportation Service Market?

Major players in the Healthcare Transportation Service include:

- Centene Corporation
- Molina Healthcare Inc.
- DHL International GmbH
- ARAMARK Holdings Corp.
- Lyft Healthcare Inc.
