[Gi-3 Growth Partners](#) Acquires Controlling Stake in Fimark Ltd

We are delighted to announce that Gi-3 Growth Partners Ltd, through its investment vehicle Gi-3 Growth Holdings Ltd, has acquired a controlling stake in Fimark Ltd from the estate of our late founder, Charles Dean, who sadly passed away earlier this year.

Fimark has become one of the UK's leading suppliers of laser marking, laser etching, laser engraving, and technical spray-painting services.

Founded in 1997, Fimark has grown to become a leading UK specialist in premium industrial laser etching, engraving, marking and texturing, proudly serving the aerospace, automotive, defence, medical and industrial sectors. This new chapter ensures that Fimark will continue to build on its strong reputation for high-precision surface finishing on complex geometries and advanced materials.

“

We're honoured to build on Charles's legacy, supporting the brilliant team that Jad has rallied, and to help scale Fimark's capabilities.”

Chris Shelley

As part of the acquisition:

Christopher Shelley has been appointed Executive Chair

Henning von Spreckelsen becomes Chief Technology Officer

Jad Cockram remains Production Manager and Director

Tim Jones continues as Company Secretary

Gi-3 Growth Partners and Gi-3 Growth Holdings are owned and managed by Christopher Shelley, Henning von Spreckelsen, and Simon Duncan, who met through the Engineering in Business Fellowship (formerly Sainsbury Management Fellowship) in the 1990s.

Together, Gi-3 and Fimark are committed to honouring Charles Dean's legacy while bringing stability, strategic oversight, and fresh opportunities for growth. With Gi-3's extensive experience and networks, we are confident this partnership will strengthen Fimark's foundations and create an exciting future for our dedicated team and valued clients.
