Made from premium corten steel and engineered to ISO standards, CMG's 40ft containers are built to endure years of heavy use in the most demanding environments. With twice the storage space of a standard 20ft container, they are designed for bulk transport, oversized inventory, and long-term on-site storage, providing the reliability and flexibility that modern businesses depend on.

Meeting Large-Scale Industrial and Logistical Demands

40ft Shipping Containers

40ft One Tripper/New Shipping Containers

As global trade and industrial operations expand, the need for high-capacity, durable shipping containers continues to increase. CMG Containers' 40ft units serve as the industry benchmark for strength, scalability, and cost-efficiency, enabling companies to manage large inventories and equipment without compromising on protection or accessibility.

Key Features of CMG's 40ft Shipping Containers

- **Maximum Capacity:** Offers approximately 2,390 cubic feet of internal space for bulk or oversized items.
- **Heavy-Duty Construction:** Built with corten steel to resist corrosion, impacts, and harsh weather.
- **Secure and Weatherproof:** Sealed against water intrusion and equipped with locking systems for added security.
- **Versatile Configurations:** Available in standard, high-cube, and open-top designs to meet different shipping and storage needs.
- **Customization Ready:** Can be modified into offices, workshops, classrooms, or modular complexes through CMG's in-house engineering team.
- **Global Compatibility:** ISO-standard dimensions make them stackable and easily transportable across all major logistics systems.
