

ServWorx Plumbing Introduces Advanced Hydrojetting Machine with Special Launch Offer

New yellow hydrojetting machine arrives at ServWorx Plumbing with a special \$650 rate for two hours from a ground-level cleanout.

QUEEN CREEK, AZ, UNITED STATES, October 15, 2025 /EINPresswire.com/ -- ServWorx Plumbing, a family-owned company [serving Queen Creek](#) and surrounding areas, has announced the addition of a new, high-efficiency hydrojetting machine to its service fleet. This investment expands the company's advanced drain cleaning capabilities, offering residential and commercial clients a powerful solution for pipe blockages. The introduction of the new equipment is accompanied by a special promotional offer to make this advanced service more accessible to property owners.

Enhancing Drain Cleaning with Advanced Technology

The new hydrojetting machine represents a significant upgrade to the company's drain and sewer line maintenance services. It uses high-pressure water streams to thoroughly clean the interior of pipes, removing stubborn buildup and obstructions. The machine's vibrant yellow color makes it easily identifiable on job sites, reflecting the company's professional and organized approach. This addition aligns with ServWorx Plumbing's commitment to using modern, effective technology to deliver quality results for its customers.

Addressing Severe Plumbing Obstructions

Hydrojetting is particularly effective for resolving issues that conventional methods like snaking

cannot fully clear. The system is designed to cut through heavy grease accumulation, descale mineral deposits, and sever intrusive tree roots from pipe walls. As a result, this technology provides a more comprehensive cleaning that not only removes the immediate blockage but also helps restore pipes to their optimal flow capacity. This preventative cleaning action can lead to a longer-lasting solution for recurring drain problems.

Details of the Introductory Service Promotion

To introduce the benefits of this technology, ServWorx Plumbing has announced a special promotional offer. The company is providing hydrojetting service for a flat rate of \$650 for the first two hours. This offer is applicable for services initiated from a ground-level cleanout, a standard access point for residential and commercial plumbing systems. The promotion is designed to give property owners in the company's service areas an opportunity to experience the effectiveness of professional hydrojetting.

Customer Engagement Invitation

ServWorx Plumbing values customer experiences and feedback across its full range of [plumbing solutions](#). The company encourages clients to share reviews and testimonials about any service they have received, from routine maintenance to emergency repairs. Feedback helps the team improve service delivery and better meet community needs.
