

FmPro Clipboard Explorer 1.01 Released at [Full Access] Supporting FileMaker Pro Clipboard Private Data Types

The new open source FmPro Clipboard Explorer (macOS/Win) manages FileMaker Pro's clipboard data, easing AI generated script import into the Script Workspace.

LOS ALTOS, CA, UNITED STATES, October 20, 2025 /EINPresswire.com/ -- [.com Solutions Inc.](https://www.fmpromigrator.com) today announced the open-source release of [FmPro Clipboard Explorer](https://www.fmpromigrator.com) 1.01, a cross-platform utility (macOS/Windows) designed to unlock and manage the private clipboard data types utilized by FileMaker Pro. The utility is being released at the [\[Full Access\]](#) unconference held from October 20–23, 2025, in Los Altos, CA.

The business card for FmPro Clipboard Explorer 1.01 features a green header with the .com Solutions Inc. logo and website. The main graphic shows a blue FileMaker icon with 'FM' on a clipboard, a QR code, and the text 'FmPro Clipboard Explorer'. Below this, it says 'Unlock the FileMaker® clipboard' and 'Get, Set, Import, and Export Private Clipboard Data Types Used by FileMaker.' The footer includes the website 'www.FmProMigrator.com', 'macOS & Windows', and 'FmPro Clipboard Explorer 1.01 Business Card'.

“

FmPro Clipboard Explorer enables developers to use the latest public generative AI models like Anthropic Claude to easily paste generated FileMaker Pro scripts into the Script Workspace (macOS/Win).”

David Simpson

Bridging Generative AI and FileMaker Pro Development

The FmPro Clipboard Explorer app solves a long-standing challenge for Claris FileMaker Pro developers by providing direct access to the hidden XML metadata that FileMaker Pro places onto the system clipboard when scripts, layout objects, or other elements are copied.

This capability is especially crucial for modern development workflows involving artificial intelligence. FmPro Clipboard Explorer allows developers to export this private clipboard data as XML and binary files. Crucially, it

also enables the importing of external XML files generated by other software, including scripts generated by Large Language Models (LLMs). This dramatically simplifies the process of integrating AI-generated code.

Key Features and Developer Benefits

The FmPro Clipboard Explorer app, developed using the LiveCode platform, offers a robust set of features to enhance developer productivity:

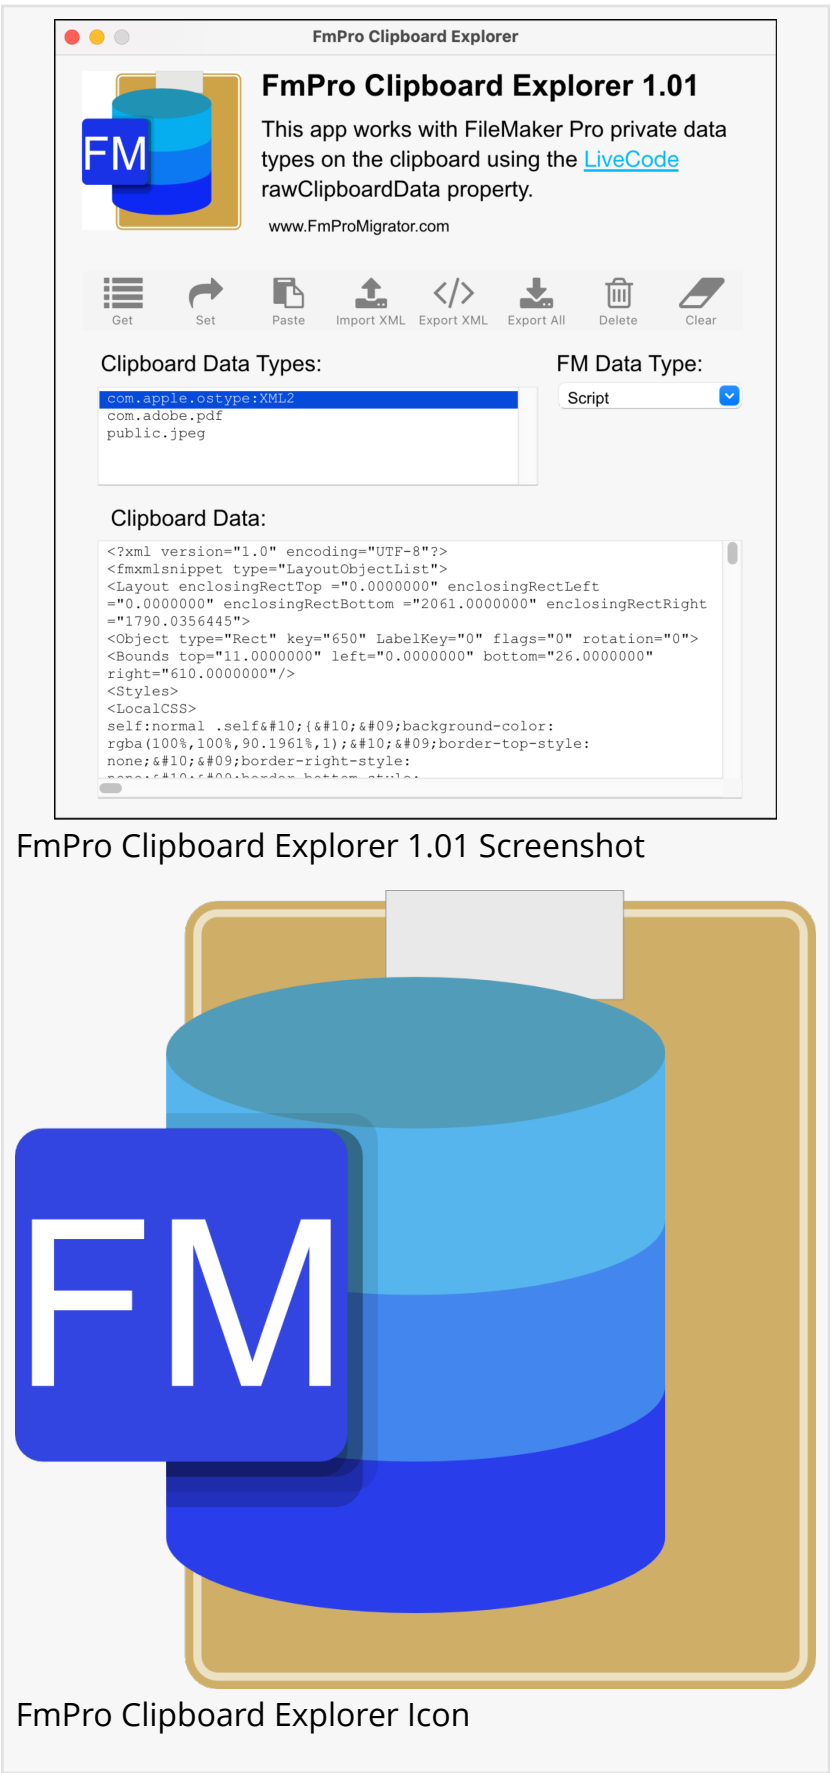

Clipboard Management: Directly interacts with and manages the private FileMaker data types on the clipboard.
A summary of these data types includes:

FileMaker Clipboard Data Types Reference

macOS	Windows	Object
XML2	Mac-XML2	Layout
XMFN	Mac-XMFN	Custom
Function		
XMTB	Mac-XMTB	Table
XMFD	Mac-XMFD	Field
XMSC	Mac-XMSC	Script
XMSS	Mac-XMSS	Script Step
XMVL	Mac-XMVL	Value List

Import/Export XML: Provides dedicated functions to Import XML and Export XML clipboard data, allowing developers to manipulate, version control, and store FileMaker elements outside the FileMaker Pro database.

AI Code Workflow: Facilitates a smooth, three-step process: Generate a FileMaker script XML snippet using an LLM, Import the XML into FmPro Clipboard Explorer, and use the Paste function to transfer script code directly into the FileMaker Script Workspace via the clipboard.

Open Source: Released under an open-source license, allowing the community to inspect the code, contribute enhancements, and build upon the utility.

Availability and Download

FmPro Clipboard Explorer 1.01 is available immediately for macOS and Windows.

Un-Conference Presence: .com Solutions Inc. is excited to demonstrate the FmPro Clipboard Explorer utility and its integration with generative AI workflows at the [Full Access] conference, a premier event for Claris developers.

[Full Access] is a community-led, in-person celebration of Claris FileMaker and related technologies, designed to strengthen and empower developers in a durable way. By bringing like-minded people together, we'll create an environment where we can support and uplift each other along our journey — fostering collaboration and growth within the community.
