

HIKARI's New Generation Intelligent Products Take Bangladesh by Storm

SHANGHAI, CHINA, October 16, 2025
/EINPresswire.com/ --

On October 11, [HIKARI](#) grandly held a launch event for its new generation of intelligent sewing machines in Dhaka, the capital of Bangladesh. Organized by HIKARI, the event successfully invited leaders from local garment industry associations, numerous enterprise representatives, and industry experts to actively participate. More than 600 guests attended in person,, exceeding expectations in terms of scale and influence.

The event comprehensively showcased the special strength of HIKARI's new generation of intelligent sewing machines and injected new momentum into the upgrading of the Bangladeshi garment industry, earning praise from many major clients.

Industry Leaders Gathered, Discussing an Intelligent Future

This launch event received high attention from authoritative

institutions in the Bangladeshi garment industry. Two leading authoritative bodies – the Bangladesh Garment Manufacturers and Exporters Association (BGMEA) and the Bangladesh Knitwear Manufacturers and Exporters Association (BKMEA) – accorded the highest level of importance to this gathering. Their respective Presidents, along with several core senior leaders, were all present. Among them, the President and the Executive Director of the BGMEA delivered important speeches.

Industry leaders unanimously agreed that the introduction of HIKARI's new generation of intelligent sewing machines will help the Bangladeshi garment manufacturing industry achieve a

qualitative leap, accelerating its progress towards world-class advanced standards.

special Products Unveiled, Showcasing Technical Strength

At the launch, Mr. Deng, Global Marketing Director of HIKARI, systematically introduced the new generation of intelligent products to the attending guests. These included the new generation intelligent high-speed lockstitch machine, intelligent overlock machine, intelligent cover stitch machine, intelligent pocket-welt machine, and intelligent pocket-patching machine, among others. Their breakthrough technical architecture and exceptional performance sparked high attention and lively discussion, with

overwhelmingly positive feedback.

It is worth mentioning that during the CISMA exhibition from September 23-27, HIKARI displayed a total of 56 machines. Among these, 39 machines were newly launched and participating in CISMA for the first time. Notably, 36 of these machines were equipped with the intelligent thread tension control system. The high proportion of new products fully confirms HIKARI's efficient R&D iteration capabilities and solid technological accumulation.

Deepening Cooperation, Creating a New Chapter for the Industry

Building on the success of this launch, HIKARI and its Bangladeshi partners have defined future market development directions. HIKARI will continue to strengthen the promotion and dissemination of new technologies, assisting Bangladeshi garment manufacturers in enhancing their competitiveness in the global market.

Moving Forward Together, Looking towards the Future

The banquet held on the evening following the launch event further enhanced mutual trust and cooperation between HIKARI and the Bangladeshi industry. Attending guests expressed that
