About the Author

Ron Lundmark has always been a storyteller at his core. Growing up in the suburbs of Detroit, Michigan, he was fascinated by books, movies, and the boundless potential of imagination. His career took an unexpected turn after serving for three years in the U.S. Army Special Services

Entertainment Division after attending Wayne State University and Oakland Community College. In an attempt to become a Hollywood celebrity, he later followed his passion for films by enrolling at Florida's Walter Engel School of Cinematography. However, life had other ideas. Instead, he found himself in the advertising business, using his creative abilities to develop, create, and direct countless television and radio commercials that were viewed by people nationwide.

Lundmark welcomes every turn in his trip, which has been anything but typical. His varied experiences, combined with years of writing stories for a variety of audiences, have sharpened his ability to tell gripping, vivid tales. The human mind has always captivated him, including human motivations, worldviews, and the influence of narrative on daily existence. He has been able to delve even further into these concepts through the creation of novels.

Lundmark is the author of Hypno Dude and Dream Machines. He is also working on several other creative endeavors, such as new books, films, and cuisine. He is a devoted husband and father of twins who has been married for 35 years. He manages to strike a balance between his love of stories and the pleasures of family life. He still writes, creates, and shares his love of storytelling with the world from his home in Florida.
