

New Book: Experiencing Transcendence Reimagines Addiction & Trauma Recovery Moving Beyond Lifelong Struggle to Freedom

Addiction Recovery Expert Richard Taite and Constance Scharff, PhD, Introduce a Sixth Stage of Recovery With Practical Tools for Post-Traumatic Growth

NEW YORK, NEW YORK, UNITED STATES, October 18, 2025 /EINPresswire.com/ -- Can you truly recover from addiction, not just manage it for life? In *Experiencing Transcendence: The Freedom of Recovering from Addiction and Trauma* (released, October 2025), leading addiction recovery expert Richard Taite and global resilience researcher Constance Scharff, PhD, make a bold claim:

complete recovery is possible. Unlike traditional programs that frame addiction as a chronic illness requiring lifelong abstinence, *Experiencing Transcendence* reimagines recovery as a transformative process, one that leads to a state of wholeness, presence, and love so complete that a person can live fully, freely, and without fear of relapse. Once the underlying trauma is healed, the need to self-medicate disappears. Taite and Scharff aim to revolutionize how addiction and trauma are treated, shifting care toward love-based, outcomes-driven practices that improve lives.

"Recovery should not feel like a life sentence," says Richard Taite. "This book will change the way we think about addiction treatment, showing that real freedom is possible when recovery centers on love, connection, and true healing."

Built around the Stages of Change model, the book introduces a newly defined sixth stage, Transcendence, which moves readers beyond maintenance into a joyful state of self-acceptance and empowerment. Through composite case studies, neuroscience insights, and practical exercises, the authors show how resilience, compassion, and agape (unconditional) love are the

gateways to permanent transformation.

“Addiction and trauma do not have to define your life,” adds Dr. Constance Scharff. “Once people experience self-compassion and connection, they can transcend their pain and live in genuine freedom.”
