

CV5 CAPITAL BRIDGES INSTITUTIONAL STANDARDS AND DIGITAL INNOVATION FOR FUND MANAGERS

CV5 Capital, a Cayman Islands-based institutional fund platform regulated by CIMA is helping fund managers launch both traditional hedge funds and crypto funds.

GEORGE TOWN, GRAND CAYMAN, CAYMAN ISLANDS, October 18, 2025 /EINPresswire.com/ -- GRAND CAYMAN, Cayman Islands, 18 October 2025 – CV5 Capital, a Cayman Islands-based institutional fund platform regulated by the Cayman Islands Monetary Authority (CIMA), is helping fund managers launch both traditional hedge funds and digital-asset funds faster and more efficiently.

Serving emerging start-up managers as well as multi-billion-dollar asset managers, CV5 Capital provides a seamless, end-to-end solution that

meets institutional expectations for governance, compliance and operational due diligence while capturing the opportunities created by blockchain and tokenization.

“Launching a fund shouldn’t be a six-month process and cost upwards of 6 figures,” said David Lloyd, CEO at CV5 Capital. “We built a platform that delivers institutional infrastructure from day one: regulated, independently governed, and designed to scale.”

Through its regulated CV5 SPC and CV5 Digital SPC, the firm structures funds across traditional and crypto-native strategies, from long/short equity to quantitative and on-chain strategies. Each fund works with institutional service providers ensuring CIMA-compliant operations.

CV5 Capital’s framework allows managers to demonstrate the operational controls institutional allocators expect: independent directors, risk oversight and transparent valuation, without the cost or complexity of building those systems internally.

Beyond fund formation, CV5 Capital is pioneering tokenized fund structures, enabling investors to hold and trade regulated fund interests on-chain.

“Tokenization is redefining how capital moves,” Lloyd added. “CV5 Capital bridges what
