

CDS Earns Security Best Practices Competency from Relativity

Recognition highlights CDS' commitment to maintaining high standards of data security and client protection in eDiscovery

NEW YORK, NY, UNITED STATES, October 20, 2025 /EINPresswire.com/ -- Complete Discovery Source, Inc. ([CDS](#)), a premier global leader in eDiscovery, serving top law firms, corporations, and government agencies for over 20 years, announced it has earned the [Relativity](#) Security Best Practices Competency. Through this Competency, CDS has demonstrated proficiency and proven customer success in enterprise and data security.

CDS Earns Relativity's Security Best Practices Competency

By achieving the Security Best Practices Competency, CDS has exhibited outstanding expertise in implementing Relativity's security best practices to uphold strong security posture, effective risk mitigation and stringent access control across its client environments. This accomplishment underscores CDS' dedication to safeguarding sensitive data and working to ensure that every [RelativityOne](#) instance is configured and managed to meet or exceed Relativity's rigorous security standards.

“

Achieving the Relativity Security Best Practices Competency validates our long-standing commitment to protecting client data through rigorous controls, proactive monitoring, & continuous improvement.”

Nyi Htwe, Chief Technology Officer

Relativity's Customer Excellence Competency Track recognizes partners that demonstrate outstanding performance in applying customer success best practices across every stage of the client journey with Relativity's solutions. As one of the earliest partners to complete the

currently available competencies within Relativity's Customer Excellence Competency Track, CDS' recognition in Security Best Practices highlights its ongoing commitment to operational excellence, cybersecurity governance and client trust. These measures ensure maximum

transparency, control and data protection, minimizing exposure and reinforcing CDS' leadership in secure eDiscovery solutions.

"Security has always been at the core of what we do," said Nyi Htwe, Chief Technology Officer at CDS. "Achieving the Relativity Security Best Practices Competency validates our long-standing commitment to protecting client data through rigorous controls, proactive monitoring, and continuous improvement. It's a testament to the work of our teams across the organization who keep security front and center every day."

Partners with the Relativity Security Best Practices Competency must demonstrate full implementation of the recommended RelativityOne Security Configurations, enable Relativity Lockbox and Lockbox Hardening across all environments, and establish a defined global escalation process for cybersecurity-related events. Additionally, partners participate in Relativity's Security Advisory Board sessions to help shape and strengthen Relativity's evolving security roadmap.
