

Planetarium by Alan Guo Wins Silver in A' Packaging Design Award

Innovative Packaging Design Inspired by Astronauts and the Cosmos Receives Prestigious Recognition

COMO, CO, ITALY, October 21, 2025 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized competition in the field of [packaging design](#), has announced that the "Planetarium" packaging design by [Alan Guo](#) has been awarded the Silver A' Design Award in the Packaging Design category. This prestigious recognition highlights the exceptional creativity, innovation, and functionality of Guo's design within the competitive packaging industry.

The "Planetarium" packaging design stands out for its unique approach to exploring the relationship between humanity and the universe. By drawing inspiration from astronauts and the iconic image of Earth as a tiny blue dot captured by the Voyager spacecraft, Guo's design resonates with current trends in the packaging industry that emphasize storytelling, emotional connection, and sustainability. The design's ability to spark curiosity about astronomy and encourage reflection on our place in the cosmos aligns with the growing demand for packaging that goes beyond mere functionality to deliver meaningful experiences.

Guo's award-winning design showcases a series of astronaut-themed cultural products, each with its own distinct features and symbolism. The astronaut-themed tote bag, for example, requires the user to grip it tightly, symbolizing the responsibility of holding a partner's life in one's hands. The vacuum flask packaging, designed with a floating visual effect, subtly reminds us of the preciousness of resources like water, which are not easily obtained in space. These thoughtful design elements not only capture the imagination but also encourage users to reflect

on their everyday lives and develop a deeper appreciation for the world around them.

The Silver A' Design Award for the "Planetarium" packaging design serves as a testament to Alan Guo's exceptional talent and dedication to pushing the boundaries of packaging design. This recognition is expected to inspire Guo and his team at GuoraphicDesign Lab to continue exploring innovative concepts that merge art, science, and philosophy to create packaging solutions that resonate with consumers on a profound level. As the packaging industry continues to evolve, designs like "Planetarium" set a new standard for creativity, functionality, and emotional impact.

About Alan Guo

Alan Guo is the founder of GuoraphicDesign Lab, with over 20 years of creative experience across industries such as IT, real estate, automotive, and film. His work spans from visual design to brand strategy and experiential marketing, consistently exploring the connection between design, consumer experience, and brand value. Guo's work has received international recognition, including being a finalist at the Cannes Lions, winning Silver at the China Advertising Festival and the Auto Advertising Festival, and being featured in global design magazines such as Creatie.

About Beijing Planetarium

Beijing Planetarium is China's first large-scale planetarium and a national-level natural science museum. It popularizes astronomical knowledge mainly through performing simulated starry sky shows, holding astronomical knowledge exhibitions, editing, publishing and distributing popular science publications such as "Astronomy Enthusiasts", and organizing public astronomical observations.

About Silver A' Design Award

The Silver A' Design Award recognizes notable designs that demonstrate excellence and innovation in their respective fields. Recipients of this award are acknowledged for their significant contributions to advancing industry standards and design practices. The rigorous selection process involves blind peer review by an expert jury panel of design professionals, industry leaders, journalists, and academics who evaluate entries based on pre-established criteria. The Silver A' Design Award celebrates designs that incorporate original innovations, elicit positive emotional responses, and make a tangible impact on improving everyday life.

About A' Design Award

The A' Design Award is an international, juried design competition that has been recognizing and promoting exceptional design across all industries since 2008. Now in its 17th year, the A' Design Award welcomes entries from packaging designers, design agencies, manufacturers, and brands worldwide. By participating, entrants have the opportunity to showcase their creativity, gain

global recognition, and be celebrated for their outstanding packaging design achievements. The competition's rigorous evaluation process involves blind peer review by a world-class jury of design professionals, packaging industry experts, journalists, and academics who assess entries based on pre-established criteria. Winning an A' Design Award provides designers and brands with increased international exposure and enhanced status within the highly competitive packaging industry. Ultimately, the A' Design Award aims to create a better world by recognizing and promoting superior products and projects that advance and benefit society through the power of good design.
