years. This is when fundamental beliefs, behaviors, and habits that can impact someone's life are developed. I wanted to share happy messages to reinforce that foundation for kids, helping them grow into kind, secure grown-ups."

Tracy also shared how her own childhood influenced the whimsical themes in her books: "Louise Hay from Hay House Publishing once told me to write books that I needed as a child and to write what I would've wanted to read as a kid. So, I took all the things I loved—giving, helping, animals, music—and created a world I'd want to live in through my books."

On spreading kindness through her stories, Tracy Watland inspires readers to embrace their voices: "Life finally taught me that everyone's voice counts, and people don't have to agree with you. But whatever your gift is, you are meant to share it. Whatever you feel you want to give a voice to—you should speak it. The right people will hear you, and it might be exactly what they need to hear too."
