MIAMI, FL, UNITED STATES, October 21, 2025 /EINPresswire.com/ -- [Casamonte](#), the house of artful surrounds and surfaces, proudly announces the debut of [Earthskin](#) — a refined new wallcovering collection co-created with internationally acclaimed design studio [YODEZEEN](#).

Yodezee

This marks YODEZEEN's expansion into material design, continuing their pursuit of immersive environments where architecture and nature converge. Earthskin redefines the role of wallcoverings, treating walls not as passive surfaces but as architectural elements — richly textured, intentionally crafted, and deeply expressive.

“

YODEZEEN is more than a studio — it's a symbol of bold architectural thinking,”
Casamonte Team

“Earthskin is about emotional texture — a presence that resonates through space,” says Artur Sharf, co-founder of YODEZEEN. “Casamonte was our first and only choice. They share our obsession with detail, texture, and truth.”

Each of the 42 wallcovering options, including 5 large-scale murals, draws inspiration from elements like eroded stone, sandblasted finishes, and hand-troweled plaster — not as imitations, but as interpretations that capture the raw essence of materiality. Using cutting-edge print technology on sustainable substrates, Earthskin achieves remarkable realism and dimensionality.

Casamonte, known for its mastery of artisanal wallcoverings and elevated finishes, translated

YODEZEEN's sculptural vision into tangible form through sustainable production and VOC-free inks, making the line ideal for luxury residential, hospitality, and commercial interiors. "YODEZEEN is more than a studio — it's a symbol of bold architectural thinking," says the Casamonte team. "
