

Compute Exchange Launches 'RFQ Hub' and Partnership & Referral Program to Accelerate Transparent AI Compute Markets

PALO ALTO, CA, UNITED STATES, October 22, 2025 /EINPresswire.com/ -- Compute Exchange, the institutional marketplace for AI compute infrastructure, today announced the launch of its new [RFQ Hub](#) alongside a [Partnership & Referral Program](#) designed to expand ecosystem collaboration, improve liquidity, and simplify GPU sourcing across more than 75 vetted providers.

The ComputeX RFQ Hub is a unified request-for-quote platform that enables enterprises, model developers, and data centers to transact GPU compute capacity with speed and transparency, a process that can normally span weeks or months, involve massive spreadsheets, hours of sales calls, and multiple complex contracts. In just minutes, buyers can submit standardized RFQs for on-demand, spot, or long-term rentals, while accessing verified price, availability, and carbon data powered by Silicon Data's benchmark suite, all under Compute Exchange's one unified neutral agreement.

RFQ Hub

Request a Quote: Get Competitive GPU Pricing. Tell us what you need and we'll connect you with the best offers from our marketplace.

RFQ Hub

"The RFQ Hub and Partnership Program represent a major step toward transparent and efficient AI compute markets," said [Carmen Li](#), CEO of Compute Exchange and Founder of Silicon Data. "We are transforming fragmented, offline GPU transactions into a liquid, trusted

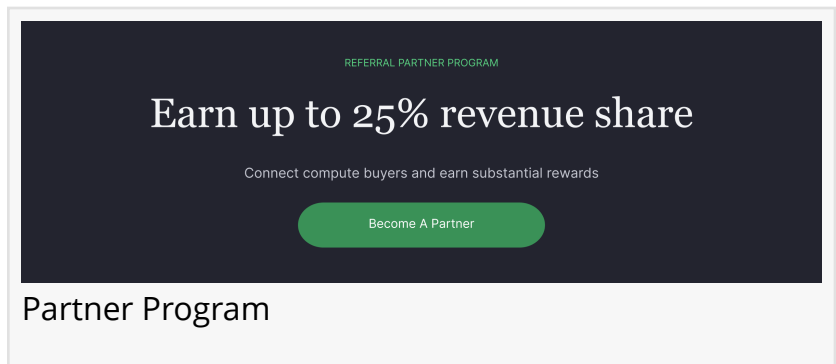

marketplace—where every partner can participate and benefit.”

Partnership & Referral Program

The new Compute Exchange

Partnership & Referral Program invites data center operators, brokers, resellers, and infrastructure providers

to join a trusted network that connects verified supply to institutional-scale demand.

REFERRAL PARTNER PROGRAM

Earn up to 25% revenue share

Connect compute buyers and earn substantial rewards

Become A Partner

Partner Program

Key Benefits Include:

- Revenue Sharing & Referral Rewards: Partners earn commissions for every successful transaction or referred client through Compute Exchange.
- Access to Aggregated Demand: Receive direct RFQs from enterprise buyers and developers actively sourcing capacity.
- Data Insights via Silicon Data: Partners gain access to GPU market analytics, benchmark data, and carbon transparency reports.
- Tiered Partner Recognition: Bronze, Silver, and Gold tiers offer escalating incentives—including marketing visibility, API integrations, and co-branded opportunities.
- Finance & Leasing Enablement: Eligibility to participate in structured financing and GPU leasing solutions for qualified partners.

Together, the RFQ Hub and Partnership & Referral Program build a bridge between compute providers and buyers—offering an efficient, data-driven way to transact, measure, and grow within the AI infrastructure economy.

For more information or to become a partner, visit www.compute.exchange or contact partners@compute.exchange.

About Compute Exchange

Compute Exchange is an institutional marketplace designed to bring transparency, liquidity, and efficiency to AI infrastructure. Backed by industry leaders and built on financial-grade standards, the platform enables enterprises and investors to buy, sell, and finance GPU compute capacity with confidence.
