

Visionary Integration Professionals Awards Scholarships to Nine Women Pursuing Tech Education

Nine women awarded up to \$2,500 in VIP scholarships for excellence and leadership in technology education.

RANCHO CORDOVA, CA, UNITED STATES, October 28, 2025 /EINPresswire.com/ -- Visionary Integration Professionals (VIP) is proud to announce the nine women selected to receive scholarships through its 2025 Women in Technology Scholarship Program! Now in its 19th year, the program – funded through VIP Cares – supports exceptional young women pursuing degrees in technology-related fields such as computer science, information management, and more.

Since its inception, VIP's scholarship initiative has awarded funding to more than 190 women and continues to embody the company's core values of inclusion, empowerment, and innovation in the tech industry. Each of the 2025 recipients will receive up to \$2,500 to attend the two- or four-year college of their choice.

The nine winners were chosen based on academic achievement, community involvement, leadership, and character. Applicants were asked to submit a short video highlighting their strengths and the qualities they hope to pass on to future generations of women in technology. Many emphasized resilience and curiosity as essential traits for success in the field.

The scholarship award recipients include:

Visionary Integration Professional's Women In Technology Scholarship

Visionary Integration Professionals, LLC

- Gowri Nanda, University of Texas at Dallas
- Malinda Voortmann, Iowa State University
- Makaylah Harris, North Carolina Agricultural and Technical State University
