“

My goal in writing *Divided We Fall* was to awaken a sense of awareness and unity. Humanity's greatest strength lies in our ability to rebuild—even when everything else has fallen.”

Carl Berryman

is a riveting political and military thriller that captures a nation on the edge of implosion. With an unflinching look at power, loyalty, and the moral decay of democracy, the novel delivers a timely message about the price of division and the fight for survival in a fractured world.

In *Divided We Fall*, Carl Berryman paints a haunting portrait of a United States torn apart by political polarization, economic instability, and civil unrest. Told through multiple perspectives—military leaders, civilians, and government officials—the novel chronicles the slow

disintegration of a once-united nation as chaos spreads across every level of society.

Berryman's authentic voice, rooted in his background in military science, lends the narrative an unsettling realism that mirrors today's world. The story captures not only the external battles of power and ideology but also the internal conflicts of conscience, loyalty, and hope. With razor-sharp tension and emotional depth, *Divided We Fall* stands as both a cautionary tale and a call for introspection in an era of growing division.
