

When the World Ends, Humanity Begins: Carl Berryman's 2025: Story of Survival Confronts the Aftermath of Global War

A masterful continuation of dystopian realism that explores resilience, leadership, and hope in the ruins of civilization.

PUEBLO, CO, UNITED STATES, October 27, 2025 /EINPresswire.com/ -- 2025: Story of Survival by Carl Berryman (ISBN: 978-1959197416), published by Authors' Tranquility Press on August 1, 2023, is a striking continuation of Berryman's dystopian vision first introduced in 2023: World War III. This gripping sequel invites readers into a world where humanity must rebuild from the ashes of global war—testing the limits of morality, community, and endurance in the face of overwhelming loss.

“

When I wrote 2025: Story of Survival, I wanted to show that true strength isn't measured by weapons or technology—it's measured by how we treat one another when there's nothing left to lose.”

Carl Berryman

In 2025: Story of Survival, Carl Berryman delivers a haunting yet hopeful account of humanity's struggle after catastrophic conflict. With entire nations decimated and infrastructure in ruin, survivors are left to navigate a world where technology, government, and order have

collapsed.

Through the eyes of a diverse cast of characters—soldiers, scientists, families, and leaders—Berryman captures the emotional and psychological toll of starting anew in a world stripped to its core. Every decision carries moral weight; every moment of trust could mean life or death.

Both a survival thriller and a social commentary, the novel examines how ordinary people confront extraordinary circumstances, reminding readers that the greatest threat—and the greatest strength—still lies within us.
