

Red Frog Beach Resort Enters a New Era of Growth and Community

Red Frog Beach Resort enters a new era with a new COA Board, new condos, and growing community momentum in Bocas del Toro.

BOCAS DEL TORO, PANAMA, October 24, 2025 /EINPresswire.com/ -- Red Frog Beach Resort in Bocas del Toro is moving forward with fresh momentum and exciting milestones that

strengthen its position as one of the Caribbean's unique island developments.

A new Community Owners Association (COA) Board of Directors, which serves a role similar to that of a Homeowners Association (HOA) Board in the United States, has been welcomed, marking a natural transition that elevates homeowner voices and reinforces collaboration among residents, Casco Capital (resort operations), and the developer. This shift enhances transparency, stability, and long-term value for owners.

At the same time, the resort has completed Cliff 200 Condominiums, nine new residences that bring nine new owners into the neighborhood. This expansion reflects not just bricks and mortar, but a growing community and renewed vision for Red Frog's future.

For investors and hospitality leaders, these milestones signal a development on the rise, delivering community alignment, continued progress, and opportunities for ownership in one of the most unique destinations in the region.

About Red Frog Beach Resort

Red Frog Beach Resort is one of the first large-scale developments in Bocas del Toro, Panama, setting the stage for a new era of island living in the region. Known for its stunning beaches, lush rainforest setting, and world-class marina, Red Frog offers a rare blend of natural beauty and modern amenities. The resort features a mix of luxury villas, condominiums, and vacation

rentals alongside eco-adventures, dining, and leisure experiences. With its low-density design, barefoot luxury lifestyle, and harmony with nature, Red Frog Beach Resort continues to set the standard for tropical living and investment opportunities in the Caribbean.
