

Smith Will Exhibit at SC25, Booth 5417

The company will showcase its enhanced data center service offerings and supply chain solutions

HOUSTON, TX, UNITED STATES, October 27, 2025 /EINPresswire.com/ -- [Smith](#), a leading global distributor of electronic components and provider of custom supply chain and data center solutions, today announces its upcoming exhibition at [SC25](#) from Tuesday, November 18, to Thursday, November 20, in St. Louis, Missouri. This is the first time Smith has exhibited at the SC conference.

Since 1988, the SC conference has been the premier international conference for high-performance computing, networking, storage, and analysis, with more than 18,000 attendees expected this year. SC brings together experts across the electronics industry—from students to engineers—to share ideas, showcase cutting-edge technology, and develop connections.

“

Smith’s white-glove service and extensive customer network positions us to empower our data center customers to fulfill the full range of their supply chain needs”

*Parker Deardorff, Vice
President of Data Center
Services at Smith*

Representatives from Smith’s Data Center Services team will be at Booth 5417 to discuss the company’s [advanced service offerings](#) for hyperscalers and data centers. Through its innovative technological advancements and commitment to sustainable solutions, Smith is equipped with the people and resources to support its clients’ unique data center needs.

The company’s expansive suite of data center services can help hyperscalers maximize the value of their data centers as they decommission servers and upgrade their capabilities. From repurposing existing components to improve computing power to reselling unwanted parts on
