

APSecure Showcases the Next Generation of Secure Payment Issuance for Banks and Businesses at AFP 2025

BOSTON, MA, UNITED STATES, October 27, 2025 /EINPresswire.com/ -- [AP Technology](#), the leading provider of secure payment issuance solutions for banks and businesses, is showcasing its enterprise platform [APSecure](#) at the Association for Financial Professionals Conference (AFP 2025) in Boston, today through October 29. Attendees can visit Booth #1634 to experience how APSecure is transforming internal payment operations with innovations such as advanced workflow automation, multi-payment support, and [Remote Official Check](#) (ROC) printing.

The graphic features the AP Technology and APSecure logos at the top left. The main title reads "Advanced Payment Workflow Automation for Modern Banking". To the right is a circular diagram with icons for a dollar sign, a bank building, a handshake, a padlock, and a person. Below the title, a paragraph describes APSecure as the next-generation of check printing and payment issuance software. To the right of this paragraph is a list of five key features, each preceded by a checkmark icon.

The Last Payment System You Will Ever Need

APSecure is the next-generation of check printing and payment issuance software that supports multi-payment types—built for banks, enterprises, and organizations that demand security, speed and efficiency in every payment. APSecure helps banks and their customers modernize payment operations with a single secure platform that's built to grow with your business.

- ✓ Remote Official Check Printing
- ✓ Customizable Workflows
- ✓ API-Driven Integration
- ✓ Security You Can Trust
- ✓ Proven Scalability

AP Technology: Advanced Payment Workflow Automation for Banks and Businesses

APSecure is utilized by banks, financial institutions, and enterprises nationwide to modernize and secure payment operations across every channel. Often used to speed-up real estate closings throughout the East Coast, APSecure has the #1 market share for Remote Official Check (ROC) solutions in New York and surrounding States. Integrated with core banking systems, APSecure is redefining how real estate transactions and financial disbursements are processed. The solution's recent expansion into Canada underscores its growing international adoption and reputation as a trusted, scalable payment issuance platform.

“

APSecure is ideal for banks looking to increase deposits while further extending their services to business customers in targeted sectors.”

Richard Love, CEO, AP Technology

“APSecure is ideal for banks looking to increase deposits while further extending their services to business

customers in targeted sectors,” said Richard Love, CEO of AP Technology. “Mobile optimization and customizable workflow automation give business customers the flexibility, speed, and

security to meet any issuance needs.”

By eliminating manual steps and reducing reliance on overnight deliveries, APSecure delivers significant time and cost savings for both banks and their clients. The solution’s advanced workflow automation enables seamless approval chains, digital signatures, and real-time disbursement tracking—ensuring every transaction is authorized, compliant, auditable, and reconciled.

APSecure supports multiple payment types, including checks, ACH, wire transfers, cards, and digital payments, all within a single, secure platform. This multi-payment capability gives banks and their customers unprecedented flexibility to manage diverse disbursement needs from one interface—simplifying operations and strengthening control.

As the market leader in remote official payment solutions (“good funds”) on the East Coast, APSecure has become the go-to platform for banks seeking to extend services into underserved areas. With its secure, compliant check issuance capabilities, banks can now reach customers (such as law firms and escrow offices) in regions without physical branches—expanding deposit relationships while reducing overhead and logistical challenges.

Financial professionals attending AFP 2025 in Boston are encouraged to visit AP Technology at Booth #1634 to see firsthand how APSecure is driving the future of secure, automated payment issuance. Those unable to attend can request a personalized demonstration by contacting
