

Reefit by Pear and Mulberry Wins Silver in A' Generative Design Awards

Innovative Sustainable Biomimetic Footwear Design Recognized for Excellence in Generative, Algorithmic, Parametric and AI-Assisted Design

COMO, CO, ITALY, October 27, 2025 /EINPresswire.com/ -- The A' [Design Award](#), a highly respected and well-recognized award in the field of [generative](#) design, has announced Reefit by [Pear and Mulberry](#) as the Silver Award winner in the Generative, Algorithmic, Parametric and AI-Assisted Design category. This prestigious recognition highlights the innovative and sustainable approach of Reefit, which seamlessly merges marine biology, computational design, and biomimicry to create a groundbreaking footwear concept.

Reefit

Reefit's award-winning design showcases the potential of generative design in addressing current trends and needs within the fashion industry. By integrating biodegradable materials, parametric modeling, and 3D printing, Reefit offers a sustainable and adaptable footwear solution that aligns with the growing demand for eco-friendly and innovative products. This recognition underscores the practical benefits of Reefit for users, the industry, and the environment, emphasizing its utility and groundbreaking approach.

What sets Reefit apart is its unique fusion of a coral skeleton framework for support and a soft-skin lattice for adaptability, offering a distinctive haptic experience. The design's multi-layered composition and intricate balance between structural integrity and organic fluidity demonstrate Pear and Mulberry's exceptional expertise in computational design and bio-integrated material science. Beyond its aesthetic appeal, Reefit embodies a complete sustainability loop, with the potential to be repurposed as artificial coral reefs, fostering new marine habitats.

The Silver A' Design Award for Reefit serves as a testament to Pear and Mulberry's commitment to pushing the boundaries of design and sustainability. This recognition is expected to inspire future projects and directions within the studio, fostering further innovation and exploration at the intersection of fashion, ecology, and technology. The award also motivates the Pear and Mulberry team to continue striving for excellence and creativity in their endeavors, contributing to the advancement of the generative design industry.

About Pear and Mulberry

Pear and Mulberry is a multidisciplinary creative studio specializing in the intersection of design, technology, and cultural narratives. Drawing from expertise in computational design, digital fabrication, and visual storytelling, the studio develops cross-genre projects spanning physical products, digital experiences, and conceptual research. Through an iterative and research-driven approach, the studio contributes to dialogues around emerging aesthetics, sustainable futures, and inclusive design methodologies. Pear and Mulberry is based in the United States of America.

About Silver A' Design Award

The Silver A' Design Award celebrates top-tier designs that embody excellence and innovation. This award acknowledges creations that are not only aesthetically pleasing but also highly functional, reflecting the designer's deep understanding and skill. Silver A' Design Award recipients are recognized for their contribution to raising industry standards and advancing the practice of design. The award is granted based on criteria such as innovative concept application, algorithmic complexity, aesthetic appeal, design originality, problem-solving efficiency, adaptability and flexibility, user experience enhancement, technological advancement integration, sustainability consideration, and cultural sensitivity.

About A' Design Award

The A' Generative, Algorithmic and Parametric Design Award is a prestigious design competition that welcomes a diverse range of participants, including visionary designers, innovative design agencies, forward-thinking companies, and leading brands operating within the field of generative, algorithmic and parametric design. Entries are blind peer-reviewed and evaluated based on pre-established criteria by an influential and expert jury panel of design professionals, industry experts, journalists, and academics. The A' Design Award, now in its 17th year, is driven by a philanthropic mission to enhance society through the power of good design, recognizing and celebrating remarkable achievements that positively impact the global community.
