

McLennan County, TX Selects DebtBook to Modernize Treasury and Accounting Workflows

CHARLOTTE, NC, UNITED STATES, October 28, 2025 /EINPresswire.com/ -- DebtBook, a leading provider of software for government and nonprofit treasury and accounting teams, today announced that McLennan County, Texas ("the County"), has selected its Debt Management, Lease Management, and Subscription Management solutions to modernize and streamline financial operations.

DebtBook's Debt Management solution will allow the County to move out of static spreadsheets and gain real-time visibility into its bond portfolio. With centralized data and automated amortization schedules, the finance team will be able to manage premium and discount activity more efficiently and respond to reporting needs with confidence.

"Having cloud-based access to our amortization schedules and the ability to easily pull reports will significantly improve how we manage our bonds," said Frances Bartlett, County Auditor for McLennan County. "We're also excited to simplify our approach to GASB 87 and GASB 96, especially as our SBITAs become more complex."

In addition to Debt Management, McLennan County will also use DebtBook's Lease and Subscription Management solutions to streamline year-end reporting and ensure compliance with GASB 87 and GASB 96. By automating journal entries, disclosures, and reporting workflows, the County will increase efficiency and improve data accuracy over time.

"We're proud to support McLennan County as they strengthen their financial workflows with DebtBook," said Tyler Traudt, CEO and Co-Founder of DebtBook. "This shift will help them lay the groundwork for strong financial stewardship and strategic long-term planning."

###

About McLennan County, TX
