

Perseverance.ac Launches the 'Never-Ending Accelerator' Platform and Signs Co-Working Community

Perseverance, the perpetual accelerator, has combined human wisdom and AI intelligence to scale startups at any stage.

LA JOLLA, CA, UNITED STATES, October 29, 2025 /EINPresswire.com/ --

Perseverance.ac, a continuous startup accelerator, is redefining how

entrepreneurs grow their businesses by combining human mentorship and artificial intelligence to help startups scale faster. Built on the belief that success comes from consistent daily action, Perseverance.ac uses a proprietary Bottleneck Resolution Methodology that pairs AI insights

with experienced human mentors to pinpoint and overcome each founder's most critical constraint.

“

At Ansir, we pride ourselves on building a tech-forward community of innovators to enable success. This partnership with the Perseverance platform is a win-win for Ansir's hybrid co-workers.”

Ping Wang, CEO Ansir, Global Co-Working

Measuring What Matters: The Perseverance Score

Progress is tracked through a visual dashboard featuring three metrics:

- * Idea Score: Evaluates concept quality, market potential, and evidence of traction.

- * Effort Score: Measures consistency, commitment, and daily activity streaks.

- * Focus Score: Assesses whether actions target the current bottleneck.

Unlike traditional accelerators with fixed three- to six-month timelines, Perseverance.ac provides ongoing, personalized support as long as needed. Its mission is to help entrepreneurs identify and resolve their most critical bottlenecks at their own pace.

Today, the company announced a partnership with cross-border co-working space [Ansir](#), led by Dr H. P. Wang, CEO of Ansir and a former Accelerator Director at Techstars and Qualcomm. Ansir will integrate Perseverance.ac's platform as part of its onboarding package for both in-person and virtual members.

Perseverance

Perseverance

"We launched Perseverance.ac at San Diego Startup Week on Oct. 10, 2025, and the response has been tremendous," said Cheryl K. Goodman, co-founder of Perseverance.ac. "Solopreneurs are embracing our easy-to-use platform and curated mentor network, and staying focused. The platform is also proving invaluable for those managing portfolio companies or startup investments who want streamlined oversight and engagement."

Perseverance: A New Kind of Accelerator

Perseverance.ac is designed for cost-conscious founders and entrepreneurs at any stage who want continuous support and accountability.

Key Differentiators

- * **AI-Human Hybrid Model:** Combines automated analysis, daily personalized recommendations, and real-time tracking with expert human guidance.
- * **Daily Engagement:** Founders interact via Telegram, email, receiving daily prompts to report progress & next steps.
- * **Affordable and Accessible:** Priced at \$100 per month, making it more attainable than equity-based accelerators.
- * **Open Access:** Welcomes entrepreneurs at any stage or industry, without exclusionary criteria.

"This model is especially valuable for founders building sustainable, real-world businesses — such as community ventures or local lifestyle brands — many of which may never seek venture funding," said Serg Dmitriev, co-founder. "At the same time, we help them

prepare strategically should they decide to pursue outside investment in the future.”

Continuous Support and Community Accountability

Founders also join weekly live mentor sessions held every Friday. These 90-minute mastermind-style meetings provide real-time feedback, peer accountability, and a space for collaborative problem-solving.

Global Support

“In the past quarter, Perseverance Technologies has onboarded entrepreneurs and mentors from around the world,” said Lena Skliarova-Mordvinova, co-founder of Perseverance.ac. “This global community now spans 8 countries, underscoring that we are truly without boundaries in how and where we connect startup dreamers, builders, expert mentors, and the best in AI.”

Profiled Startup in Greece,: [Blend.app](#),

Constantinos Samuel, co-founder and CEO of Blend.app, a team management platform for bars, restaurants, and cafés, is driving the company’s expansion into the U.S. market. Having joined Perseverance.ac while in the United States, he now continues to collaborate seamlessly with the Perseverance team from his home base in Greece as he advances his goal of U.S. growth.
