Our Family, Caring for Your
Family, Since 2010"

Teresa Sajkowski

What began as a nurse's mission to deliver truly compassionate and reliable care has grown into one of the most forward-thinking home care franchise systems in the nation. Founded by Registered Nurse and Certified Care Manager, Teresa Sajkowski, Always Responsive Home Care is redefining the [home care near me](#) experience with a

model that blends clinical excellence, customer service, and modern technology to create faster, more personal, and more responsive care.

A Nurse's Vision Becomes a Movement

When Teresa Sajkowski, RN BSN CMC, started Always Responsive Home Care in New Jersey over a decade ago, her goal was simple: to bring dignity and true responsiveness back to home care.

"As a nurse, I saw families struggling to find care that felt personal, trustworthy, and dependable," Sajkowski said. "I wanted to create an agency that lived up to its promise — to always be responsive — for every client, every family, every time."

From that commitment grew one of New Jersey's most respected agencies, serving Mercer, Monmouth, Middlesex, Bergen, Ocean, Union, and Somerset counties. Known for its 24/7 live coordination, same-day staffing, and RN-led oversight, the agency quickly became recognized among families and healthcare professionals as one of the best home care agencies near me in

every community it serves.

Expanding to Pennsylvania, Florida, and Beyond Building on its success in New Jersey, Always Responsive Home Care recently opened new franchise locations in Pennsylvania and Florida, with additional territories launching nationwide in the coming months.

“This next chapter is about scaling what made us special — compassionate care and responsiveness — and bringing it to families across the country,” Sajkowski said. “We’re growing quickly but staying true to our values: clinical excellence, integrity, and personal connection.”

Blending Care and Technology for a Faster, Smarter System

Always Responsive Home Care’s franchise model is pioneering a modern approach to senior home care and home care for the elderly by integrating technology that enhances—not replaces—human connection.

Each franchise benefits from:

Automated onboarding and digital care plans for fast, compliant client setup

AI-assisted caregiver matching for the right fit every time

24/7 live communication ensuring clients always reach a real person

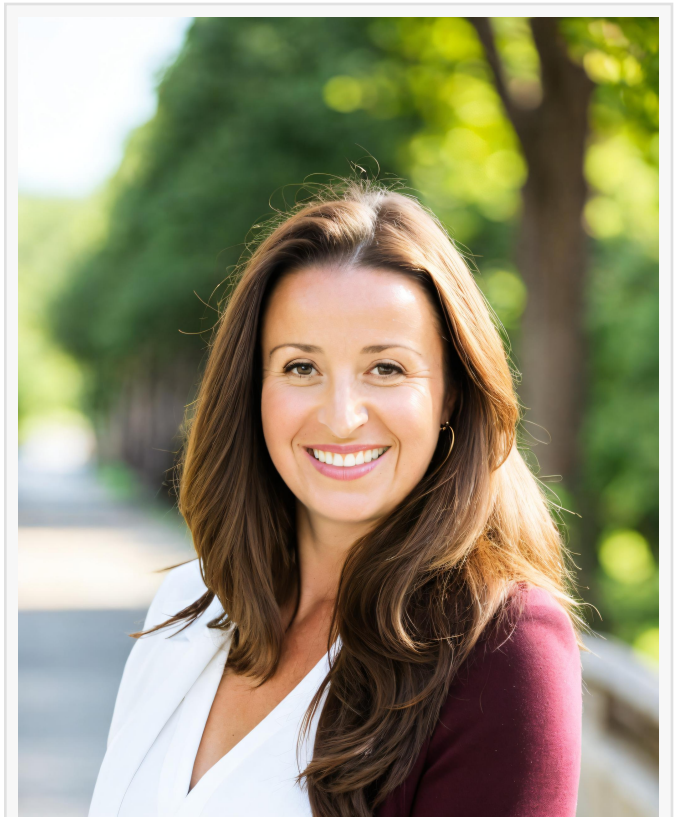

Data-driven local marketing tools that help families easily find home care near me, live-in care, overnight care, and 24/7 care in their area

This innovation-driven system allows franchise owners to focus on people, not paperwork — while maintaining the RN-led quality and responsiveness that define the brand.

A Culture of Compassion and Respect

At the heart of Always Responsive Home Care’s success is its unwavering commitment to caregivers. The company provides full support, training, and recognition programs that help caregivers feel valued and respected. This philosophy has earned the company exceptionally high caregiver retention and consistent 5-star client reviews.

“When caregivers feel supported, clients receive better care. It’s that simple,” Sajkowski noted. “We built a company culture that celebrates compassion — and it shows in every home we serve.”
