

Fabricated Metal Market Trends: Technological Advancements and Global Demand Patterns, 2031

The global fabricated metal market is projected to reach \$34.1 billion by 2031, growing at a CAGR of 4.8% from 2022 to 2031.

WILMINGTON, DE, UNITED STATES, October 28, 2025 /EINPresswire.com/ -- According to the report published by Allied Market Research, the global [fabricated metal market](#) was estimated at \$21.4 billion in 2021 and is expected to hit \$34.1 billion by 2031, registering a CAGR of 4.8% from 2022 to 2031. The

report provides a detailed analysis of the top investment pockets, top winning strategies, drivers & opportunities, market size & estimations, competitive landscape, and evolving market trends. The market study is a helpful source of information for the frontrunners, new entrants, investors, and shareholders in crafting strategies for the future and heightening their position in the market.

The global fabricated metal market is analyzed across metal type, application, end-user, and region. The report takes in an exhaustive analysis of the segments and their sub-segments with the help of tabular and graphical representation. Investors and market players can benefit from the breakdown and devise stratagems based on the highest revenue-generating and fastest-growing segments stated in the report.

By metal type, the copper segment held the largest share in 2021, garnering over half of the global fabricated metal market revenue, and is projected to maintain its dominance by 2031. The steel segment, on the other hand, would showcase the fastest CAGR of 5.2% during the forecast period.

Fabricated Metal Market CAGR

Procure Complete Report (420 Pages PDF with Insights, Charts, Tables, and Figures) @ <https://bit.ly/3IjYl3v>

By application, the bolts, nuts, & screw application contributed to nearly two-seventh of the global fabricated metal market share in 2021 and is projected to maintain its dominance by 2031. The hand tool application segment, on the other hand, would display the fastest CAGR of 5.0% throughout the forecast period. The other segments assessed through the report includes cans, pipes & pipe fittings, metal doors & windows, and others.

By end-user, the manufacturing segment accounted for the highest share in 2021, generating around one-fourth of the global fabricated metal market revenue. The building & construction segment, simultaneously, would portray the fastest CAGR of 5.3% during the forecast period. The energy & power, automotive, aerospace, electrical & electronics, and other segments are also analyzed through the report.
