ENDING THE "10×10" BAIT-AND-SWITCH

Traditional kitchen cabinet retailers commonly advertise "10×10 kitchen" pricing to attract customers with appealing price points. However, these configurations often lack transparency, leaving consumers unclear about what's actually included in their purchase.

"We're putting an end to the guessing game," said James Corkish. "When customers see our 10 ft Run pricing, they see everything—every cabinet size, every door, every drawer. It's fully itemized and described, so there are no surprises when it comes time to order."

Unlike traditional [10×10 kitchen packages](#), Discount Custom Cabinets 10 ft Run configurations provide a more realistic representation of actual kitchen layouts while maintaining complete

transparency about what's included at each price point.

COMPREHENSIVE SELECTION ACROSS MULTIPLE COLLECTIONS

The new 10 ft Run Kitchen line includes:

Discount Custom Cabinets has built its reputation on transparent, customer-focused pricing. The company quotes based on real space requirements—the actual linear footage needed, the specific cabinets that fit each unique layout, and the features customers actually want.

"No theoretical configurations. No fine print surprises. Just transparent pricing for the cabinets you'll actually need," added James Corkish. "We believe customers deserve to know exactly what they're getting for their investment."
