“

The costliest mistake isn't wrong strategy—it's strategies that work in one country but fail in another. When your Canadian will contradicts your US trust, you've created a litigation lottery.”

Jonathane Ricci

families losing an estimated \$280 billion annually to preventable estate taxes, disputes, and planning failures—including \$68 billion in Canada and over \$200 billion in the United States—JR Wealth Management today announced its Legacy Command Center, a revolutionary coordination system that deploys [Managed Legal Expertise©™](#) to orchestrate multiple law firms across jurisdictions in creating bulletproof succession strategies.

THE NORTH AMERICAN CRISIS

Critical Estate Failure Statistics:

- United States: \$200+ billion annual estate tax and dispute

losses

- Canada: \$68 billion lost to preventable succession failures
- Cross-Border Families: 43% face double taxation without proper coordination
- Estate Litigation: Average dispute cost: \$150,000 USD / \$195,000 CAD
- Timeline Impact: Uncoordinated estates take 3-7 years to settle

THE FATAL FLAW

The Legacy Command Center addresses the fundamental failure in traditional estate planning: disconnected professionals creating conflicting strategies that collapse under tax scrutiny, cross-border complexity, or family dynamics.

"Whether dealing with Canadian deemed disposition rules or US estate tax thresholds, most estate plans are collections of documents created by different professionals who never speak to each other," stated [Jonathane Ricci](#), CEO of JR Wealth Management. "Our Legacy Command Center changes that entirely. Through Managed Legal Expertise©™, we don't coordinate

advisors—we command them like a conductor leading a symphony. Every lawyer, accountant, and advisor across multiple jurisdictions plays their part in perfect harmony."
