

Nordlys® Light & Bright™ Treatment Now Available at Untouched Allure Medical Aesthetics

DOVER, NH, UNITED STATES, October 29, 2025

/EINPresswire.com/ -- [Untouched Allure Medical Aesthetics](#) is excited to announce the addition of the cutting-edge Nordlys device to their Med Spa, further elevating their commitment to providing exceptional aesthetic treatments. The Nordlys device allows them to broaden their capabilities in laser hair reduction and skin rejuvenation therapies, effectively treating a myriad of skin concerns, including wrinkles, sun damage, scars, age spots, freckles, rosacea, and other skin imperfections. The award-winning [Nordlys®](#) system is known globally, has been used by celebrities, and was featured in multiple media outlets, including the Today Show on NBC.

One of the popular treatments on the Nordlys® system is the Light & Bright™ treatment. Light & Bright is an exciting treatment that both rejuvenates and resurfaces skin to improve redness, dark spots, textural irregularities, and spider veins. It uses a combination of a highly selective form of intense pulsed light (IPL) and a non-ablative fractional laser to improve redness and dark spots, resurface the skin, and stimulate the body's own natural collagen production for bright, glowing skin. The treatment is backed by clinical studies.

During a Nordlys® Light & Bright treatment, the device delivers energy into the deeper layers of the skin. The skin cells absorb this light and transform it into heat energy to eliminate unwanted pigment or vascularity. Light & Bright treatment for skin rejuvenation is an excellent option to renew skin and reduce signs of aging. Because a non-ablative laser is used, the downtime is low.
