

Greystone by Ahmed Habib Wins Silver in A' Architecture Awards

Innovative Jeddah Residence Recognized for Excellence in Architecture, Building and Structure Design

COMO, CO, ITALY, October 30, 2025 /EINPresswire.com/ -- The A' Design Award, a highly prestigious recognition in the field of [architecture](#) and design, has announced Greystone by [Ahmed Habib](#) as the Silver winner in the Architecture, Building and Structure Design category. This esteemed award celebrates the exceptional design of the Greystone House, a remarkable residential project in Jeddah that redefines the essence of architectural design while embracing climate requirements and respecting cultural considerations, including privacy.

Greystone

The A' Architecture, Building and Structure Design Award holds significant relevance for the industry and its stakeholders. By recognizing projects like Greystone, the award promotes innovation, sustainability, and cultural sensitivity in architectural design. This recognition not only validates the designer's vision but also inspires other professionals to push the boundaries of what is possible in creating functional and aesthetically pleasing living spaces.

Greystone House stands out for its seamless integration of indoor and outdoor spaces, ensuring that every area within the house enjoys captivating landscape views. The modern architectural design draws inspiration from the principles of minimalism and the beauty of nature, characterized by sleek lines and a harmonious blend of white and gray materials. The emphasis on open spaces and natural light through large windows, combined with a carefully crafted outdoor area featuring a wooden deck, comfortable seating, and a central tree as a focal point, creates a serene and inviting atmosphere that fosters a seamless connection between the

interior and exterior.

The recognition bestowed upon Greystone by the A' Architecture, Building and Structure Design Award serves as a testament to Ahmed Habib's commitment to excellence and innovation in architectural design. This achievement is expected to inspire future projects within the firm, driving them to continue exploring new ways to enhance the living experience while respecting the environment and cultural context. The award also reinforces the importance of sustainable design practices and the use of local materials in creating structures that harmonize with their surroundings.
