## Persistent Barriers in Hedge Fund Operations

Hedge fund administrators and managers continue to face operational challenges that restrict scalability and increase risk exposure.

Notable obstacles include:

1. Rising cost structures and insufficient internal capacity
2. Errors and lags in NAV preparation and data reconciliation
3. Heightened compliance pressures under evolving regulations
4. Fragmented investor reporting channels and AML inefficiencies
5. Inadequate mechanisms for managing complex or illiquid assets

Collectively, these barriers undermine operational precision, reduce profitability, and threaten investor confidence as funds grow, and complexity increases. For many firms, adopting Hedge fund outsourcing services has emerged as the most effective way to overcome these challenges while maintaining agility and control.

## IBN Technologies' Global Hedge Fund Outsourcing Model

To overcome cost, compliance, and capacity constraints, IBN Technologies delivers an end-to-end outsourcing framework for hedge fund Middle and Back-Office operations—built for accuracy, agility, and transparency.

- Fund Accounting & NAV Calculation: Precise NAV generation supported by thorough ledger management, accrual monitoring, and expense reconciliation ensures dependable valuations and reliable Hedge Funds Reporting for investors and regulators.
- Investor Services & AML Compliance: IBN streamlines investor onboarding, KYC, redemptions, and reporting processes, maintaining global AML adherence and operational integrity.
- Trade Capture & Reconciliation: Real-time trade booking and reconciliation with custodians and prime brokers minimize discrepancies and enhance data accuracy.
- Security Pricing & Valuation: Independent valuation support for structured and illiquid assets using trusted pricing sources and compliant methodologies.
- Audit & Financial Reporting Support: Detailed audit coordination, fee accounting, and year-end financials designed to meet international audit standards.

With 26+ years of expertise and ISO 9001, 20000, and 27001 certifications, IBN Technologies leverages its Pune delivery center and U.S. operations to provide 24/7 coverage, ensuring scalable, compliant, and high-quality Fund Middle and Back-Office administration.

## Operational Advantages of IBN's Fund Outsourcing Model

Through its specialized outsourcing framework, IBN Technologies delivers measurable improvements in performance, governance, and cost structure for hedge funds globally.

- Reduce Costs: Cut operational expenditure by up to 50% through automation, lean processes, and offshore staffing models.
- Scale Efficiently: Scale seamlessly during fund expansions, investor onboarding, or diversification initiatives.
- Minimize Risk: Improve compliance monitoring, reduce manual dependencies, and enhance audit readiness.
- Improve Focus: Enable portfolio teams to focus on alpha generation while IBN manages operational execution.
- Enhance Accuracy: Improve NAV precision and reconciliation speed with advanced reporting and analytics tools.

By effectively Managing and Controlling Hedge Fund Operations, IBN ensures consistency and transparency across all functions, supporting fund managers in achieving performance excellence and regulatory assurance.

#### Proven Performance & Scalability

As the hedge fund landscape evolves, IBN Technologies continues to set benchmarks in operational outsourcing—delivering scalable, transparent, and technology-led fund support.

1. \$20 billion in assets serviced through back-office outsourcing initiatives.
2. 100+ hedge funds utilizing IBN's accounting, reporting, and administration expertise.
3. 1,000+ investor accounts efficiently maintained through integrated servicing systems.

These results showcase IBN's proven capacity to manage both emerging and institutional-grade clients effectively.

To stay ahead in 2025, hedge funds are turning to lean, digital operating models that emphasize efficiency and control. IBN's global delivery platform combines secure infrastructure and analytics-driven processes for consistent, high-performance outcomes.

“Our vision is to partner with hedge funds as their operational core,” noted Ajay Mehta. “We provide the scalability, compliance, and insight they need to compete in today's demanding markets.”

#### Operational Agility: The New Edge for Hedge Funds

As the financial landscape evolves, hedge funds are reimagining their operating models to stay ahead of performance expectations and regulatory demands. Enabled by technology-driven processes and globally distributed expertise, firms are achieving unprecedented operational agility. The integration of digital transformation across financial services is redefining competitiveness, making outsourcing a strategic choice for scalability, cost efficiency, and compliance.

IBN Technologies empowers hedge funds with robust Fund Middle and Back-Office outsourcing services that align with modern market complexities. By leveraging domain expertise, advanced

automation, and flexible service models, IBN helps firms establish resilient operational foundations that support investor confidence and data transparency. Transitioning from manual, resource-intensive processes to a streamlined digital infrastructure not only enhances productivity but also positions hedge funds for sustainable, long-term growth.
