"Our clients benefit from personalized strategies crafted by a team with over 20 years of investment banking experience,

At the forefront of Creddinv ONE's mission to unify wealth management, Mr. Subrata Nayak is driving a smarter, research-backed approach to portfolio growth.

along with institutional-grade research, typically reserved for corporate clients, all accessible through a single, trusted platform."

Leading this new wing of Creddinv ONE is Mr. Subrata Nayak, Head of Private Wealth. With over 20 years of experience in leadership roles at Shriram Wealth, Axis Bank Ltd, and Motilal Oswal Private Wealth, he brings deep expertise in managing HNI portfolios and building lasting client relationships.

The inspiration for Creddinv ONE arose from the challenges faced by investors who often juggle multiple platforms and advisors for different investment types, such as mutual funds, PMS, and private equity. This scattered approach can lead to inefficiencies, a lack of clear visibility, and inconsistent advice. Creddinv ONE was developed to bridge this gap, providing a single platform for investors to plan, diversify, and grow their wealth seamlessly.

Creddinv ONE distinguishes itself by merging the expertise of an investment bank with the user-friendliness of a digital wealth platform. Unlike many platforms that limit investors to traditional products or generic advice, Creddinv ONE offers several key benefits:

**360° Portfolio View:** Integrates all asset classes, from SIPs to startups, providing a complete overview of one's investments.

**Personalized Wealth Strategies:** Curated by a team with over 20 years of investment banking experience, ensuring tailored advice.

**On-Ground Presence:** Offers face-to-face, relationship-driven service across key financial hubs.

**Institutional-Grade Due Diligence:** Provides research typically reserved for corporate clients, now available to individual HNIs.

This comprehensive approach helps investors save time, gain confidence in their decisions, and access opportunities beyond traditional investment instruments, all within a single, reliable platform.
