

Champion Pools & Spas Advises Homeowners to Begin Pool Planning This Fall for On-Time Summer Completion

WEST PALM BEACH, FL, UNITED STATES, October 31, 2025 /EINPresswire.com/ -- Champion Pools & Spas is encouraging South Florida homeowners to begin the design and permitting process for new pool installations this fall to help ensure timely completion before next summer.

According to the company, fall offers an ideal window to begin pool planning, allowing sufficient time for design customization, material selection, and permitting before the busy spring construction season begins.

"Starting the process in the fall can help homeowners avoid peak-season scheduling challenges and material delays," said David Brams, CEO of Champion Pools & Spas. "It's a proactive approach that helps ensure their projects are ready for use when warm weather returns."

A typical custom pool project can take three to six months to complete, depending on design complexity, permitting timelines, and weather conditions. Beginning early can help homeowners plan budgets, secure materials, and finalize landscaping details without the time constraints common in spring and summer.

Since 1993, Champion Pools & Spas has designed and built custom residential and commercial pools throughout South Florida. The company's projects include luxury in-ground pools, spas, and outdoor living spaces designed to complement each homeowner's property and lifestyle.
