

POST-PRODUCTION NEARING ON 'HARMLESS,' AN INDEPENDENT FILM NOW HEADED TO FESTIVALS

INNOVATIVE FEATURE-LENGTH THRILLER STARRING SCOTT CHRISTOPHER AND MARISSA RIVERA FILMED ENTIRELY ON KODAK SUPER-8 FILM

PARK CITY, UT, UNITED STATES, November 2, 2025 /EINPresswire.com/ -- HARMLESS, the new feature film now in post-production from Panther Pictures - LLC, and Roseland Pictures, seeks distribution and has begun the submission process to top film festivals across North America, including Sundance, Slamdance, and the Zions Indie Film Festivals. The Executive Producer of HARMLESS is Eric Player. The creative crew are alumni of Chapman University's Dodge College Marion Knott Studios, in Orange, CA. Shot on Super-8 Kodak Film.

HARMLESS tells the story of Grace Norway, and her struggle for answers in the disappearance of her husband and her neighbor. The easiest thing to believe is that they ran away together. The hardest thing to face is the bone-chilling truth. Most of the people we know in life are quiet, unassuming, ordinary, average. Average does not mean innocent; even if someone has never done you any harm, that doesn't make them harmless.

HARMLESS stars [Scott Christopher](#) (Granite Flats, The Best Two Years), [Marissa Rivera](#) (Lucifer), and Gary J. Klavans (Stay With Me). With Owen Morgan (Cobra Kai, Almost Popular), Briana Watson (Beyond The Gates), Boz Wells (Operation Fernsby), and Anthony J. Potter (Elevate). [Charles Box, Jr.](#) directed the film based upon the script by Eric Player. Kanarose Oonhateparuk co-produced as Roseland Pictures. The film was shot in Jackson, Mississippi through a producing partnership with Eyevox Entertainment.

The feature was partially sponsored by Kodak and shot entirely on Super-8 film with Beaulieu cameras. This was an Ultra Low Budget SAG/AFTRA production. The team is available for

interviews about the story, the goals of the production, trivia including the process for getting SAG on such a low budget, distribution ideas, making a first feature on actual Kodak film, and packaging a feature film in today's market.
