The milestone reflects the growing global demand for efficient, technology-driven solutions in legal document preparation. Zylpha's platform enables legal professionals to create court-compliant bundles in minutes, dramatically reducing the time spent on traditionally repetitive and labour-intensive tasks.

“

"Reaching 6,000 users across more than 30 countries validates our vision of transforming how legal teams approach Court bundling," "

Tim Long, CEO, Zylpha

improve overall efficiency.

The platform's intuitive drag-and-drop interface, combined with powerful features including automated numbering, redaction, OCR, and auto-indexing, has resonated with solo practitioners and large legal teams alike. By streamlining the Court bundling process, Zylpha helps legal professionals reclaim valuable time, reduce errors, and

"Reaching 6,000 users across more than 30 countries validates our vision of transforming how legal teams approach Court bundling," said Tim Long, CEO of Zylpha. "This is just the beginning. As we continue to innovate and expand our platform's capabilities, we're committed to setting new standards for efficiency and compliance in how bundles are put. Our focus remains on

developing solutions that don't just meet today's needs but anticipate the challenges of tomorrow's legal landscape."

The platform's adoption has been particularly strong among legal professionals seeking to modernise their practices while maintaining strict court compliance standards. Users consistently highlight the ease of use and time savings as key factors in their decision to move to the cloud-based solution.

Zylpha offers a free tier for individual users, with scalable options for teams and organisations of all sizes. The company continues to enhance its product offerings and integrations to ensure clients benefit from the latest technology advancements.
