

Andros Achieves SOC 2® Type 2 Milestone, Reinforcing Commitment To Security And Trust

Andros achieves SOC 2 Type 2 milestone, demonstrating robust security, operational excellence, and commitment to client trust.

NEW YORK, NY, UNITED STATES, November 4, 2025 /EINPresswire.com/ -- Andros, the leader in provider network lifecycle solutions, today announced that it has successfully completed its SOC 2 Type 2 attestation, marking a significant milestone in the company's ongoing commitment to safeguarding client data and ensuring the reliability of its systems.

"Earning our SOC 2 Type 2 attestation underscores Andros's deep commitment to security, reliability, and transparency," said Paul Griffiths, Chief Technology Officer at Andros. "Our partners entrust us with sensitive data that powers their provider networks. This milestone validates the systems and practices we've built to protect that data and to operate with integrity at every level."

Technology Officer, Andros*

Developed by the American Institute of Certified Public Accountants (AICPA), the SOC 2 Type 2 attestation evaluates an organization's controls related to security, availability, processing integrity, and confidentiality over a period of time. The result demonstrates not only that Andros has the proper controls in place, but that those controls operate effectively and consistently.

The achievement reflects Andros's continued investment in its information security program and

provides clients with independent assurance that the organization meets rigorous standards for data protection and operational excellence.
