

Off-Road Canada Powers Up Chevy & GMC Trucks with Performance Exhaust Upgrades

New cat-back exhaust options for 2014–2018 Silverado & Sierra 1500 5.3L deliver deeper tone, better throttle response, and corrosion-resistant durability.

TORONTO, ONTARIO, CANADA, November 5, 2025 /EINPresswire.com/ -- Off-Road Canada, a leading supplier of off-road parts and accessories since 2008, today announced the addition of new Performance Cat-Back Exhaust Systems for Chevy Silverado and GMC Sierra 1500 trucks (2014–2018). The launch gives Canadian truck enthusiasts access to enhanced power, performance, and sound — engineered for real-world driving conditions across Canada.

Performance Meets Precision for Canadian Drivers

These new Cat-Back Exhaust

Systems deliver a balanced combination of aggressive tone and practical power, increasing both horsepower and torque while maintaining a refined sound profile.

Designed with mandrel-bent tubing, corrosion-resistant steel, and bolt-on compatibility, each system is built to withstand Canadian winters and heavy-duty use.

“Our customers don’t just want sound — they want performance they can feel,” said Matt, part of the Off-Road Canada leadership team. “We’ve chosen these systems for their perfect blend of tone, durability, and everyday drivability. They make your truck sound the way it should — bold, but controlled.”

Off-Road Canada highlights its premium lift kit selection for Canadian trucks, including Rough Country, BDS, and Skyjacker systems.

Built for Real Canadian Roads
Off-Road Canada's new exhaust lineup is optimized for trucks driven year-round in harsh conditions — from snowy Alberta highways to muddy Ontario trails. Each system features: Stainless steel construction for rust resistance
Direct-fit installation using factory mounts
Improved throttle response and low-end torque
Fuel efficiency gains through optimized flow
