

CEdge Corporation Spins Off Sejal-Learn.com, a Next-Gen Lifelong Learning Platform Bridging Education to Employment

New startup—co-founded by Sekhar Prabhakar, Leonardo Cunha, and Cornell scholar Sejal C. Sekhar — offers AI-powered pathways from K-12 to workforce development

ST. LOUIS, MO, UNITED STATES, November 6, 2025 /EINPresswire.com/ -- CEdge Corporation today announced the formal launch and spin-off of Sejal Learning Systems, and the next-generation learning experience platform <https://sejal-learn.com> - designed to transform how students and workers build lifelong career pathways. The platform is now operating as an independent, seed-investment-ready startup, with all intellectual property and assets assigned to the new entity.

“

Our mission is to expand opportunity by making high-quality learning accessible to every community. Sejal-Learn.com is about empowering learners at every stage of life to build real pathways to impact”

Sejal Sekhar, Co-Founder

Our Philosophy: Learning That Flows Into Opportunity

Co-founded by Sekhar Prabhakar (Founder & CEO), Leonardo Cunha (Co-Founder & CTO), and Sejal C. Sekhar (Co-Founder & Strategy Lead), Sejal Learning System's AI platform unifies learning content, delivery, and educational analytics into one intelligent ecosystem. Named after co-founder Sejal Sekhar—whose background in education policy and civic innovation helps shape the platform's mission, the startup aims to bridge the gap between traditional education and real-world opportunity.

Addressing Critical Challenges in Modern Education

Educational institutions today face outdated curricula, limited modernization resources, and rising expectations to prepare learners for fast-changing careers. According to NCES, 60% of

graduates report feeling unprepared for college and the workforce.

[Sejal-Learn.com](https://sejal-learn.com) reduces these barriers by enabling institutions to rapidly build personalized, accredited learning experiences. The platform automates the conversion of books, documents, and media into interactive digital lessons, supports AI-powered tutoring, and provides deep analytics that guide student and program success.

Early Traction and Strategic Partnerships

In its first year, Sejal-Learn has established partnerships with several influential educational and content organizations, including:

- Wiley – Home of the legendary For Dummies series
- EC Council – Authorized Training Center for 72 cybersecurity pathways
- The VR School at Stanford – WASC accreditation for Sejal-Learn.com digital courses
- Brainchild – Access to 140,000+ curriculum-aligned K-12 & GED exercises
- Generations Broadcasting / GBC Stories / Jennifer Bardot's G.R.I.T.

These partnerships reflect the platform's ability to integrate seamlessly with existing publishers of high-quality content while empowering educators to deliver web and mobile learning at scale.

Founder Perspectives

"As an incubator of transformative technologies, CEdge is proud to see Sejal Learning Systems stand on its own as a mission-driven platform built to reshape the future of learning," said Sekhar Prabhakar, Founder & CEO.

"By unifying content creation, AI, and accredited delivery, the <https://sejal-learn.com> platform enables any institution to build meaningful pathways into modern careers," said Leonardo Cunha, Co-Founder & CTO.

Sejal C. Sekhar, Co-Founder & Strategy Lead and namesake of the platform, added: "Our mission is to expand opportunity by making high-quality learning accessible to every community. Through my work in public policy and education — whether coordinating national initiatives, supporting community-driven projects, or shaping Sejal Learning System's long-term strategy — I've seen how transformative equitable access can be. Sejal-Learn.com is about empowering learners at every stage of life to build real pathways to impact."

Open for Seed Investment

With a fully assigned IP portfolio, proven national partnerships, and a rapidly expanding catalog of accredited and workforce-aligned courses, Sejal Learning Systems is now open for seed

investment to accelerate nationwide adoption.
