An ancient curse collides with modern greed in this gripping new thriller praised by Kirkus Reviews.

LOS ANGELES, CA, UNITED STATES, November 6, 2025 /EINPresswire.com/ -- [David Boito](#)'s Fatal Castle Turns the Tower of London into a Battleground of Medieval and Modern Warfare

Award-winning author and screenwriter David Boito unveils his new novel, Fatal Castle, a gripping story where history, greed, and vengeance collide at the heart of London's most famous landmark.

About the Book

When heavily armed mercenaries storm the Tower of London in pursuit of the cursed Kohinoor diamond, chaos and terror unfold behind the ancient walls. Ashley Bellamy, a diamond enthusiast visiting her estranged father Clive, the Tower's Chief Yeoman Warder, finds herself trapped as ex-bomb disposal expert Richard Bindar leads a brutal heist disguised as an act of terrorism.

Their only hope lies in the Tower itself: centuries-old hidden passages, murder holes, and medieval weapons offer a defense against the incursion. Clive's knowledge of antique armaments puts him in a position to mount an

opposition. With the fate of London hanging in the balance, Ashley and Clive must reconcile their past and use the Tower's secrets to outwit a modern army. But as the siege intensifies, the curse of the Kohinoor threatens to claim new victims—and reveal Bindar's true motive.

Praised by Kirkus Reviews as “a creative blend of ancient and modern warfare, filled with relentless tension and surprising heart,” Fatal Castle combines the pulse-pounding suspense of a heist thriller with the intrigue of historical legend.
