

Consumer Protection Law Group Launches Specialized Support for Drivers Affected by Fall 2025's Major Vehicle Recalls

CPLG provides critical legal guidance as September-October 2025 recalls affecting 3+ million vehicles fuel unprecedented consumer claims nationwide

AZ, UNITED STATES, November 6, 2025 /EINPresswire.com/ -- [Consumer Protection Law Group](#) (CPLG), the nationwide consumer advocacy firm behind [247LemonLaw.com](#), today announced the launch of specialized legal services designed to help vehicle owners navigate fall 2025's major automotive recall crisis, including three massive safety campaigns affecting over 3 million vehicles from Ford, Toyota, and Tesla.

With over 8.5 million vehicles recalled in Q3 2025 alone, CPLG is responding with enhanced legal strategies and expedited case processing to protect drivers' rights during this unprecedented period of automotive safety failures.

Fall 2025's Critical Safety Recalls

September and October 2025 have witnessed an extraordinary wave of safety recalls that CPLG is actively addressing:

Ford's Largest 2025 Recall: 1.4+ million Ford and Lincoln vehicles (2015-2019 models) recalled for rearview camera failures that display blank, distorted, or inverted images, creating significant backing-up crash risks. Additional Ford recalls include 850,000+ vehicles for low-pressure fuel pump failures causing engine stalls and 694,000+ Bronco Sport/Escape vehicles for cracked fuel injectors that leak fuel and create fire risks.

Toyota's Dashboard Crisis: 591,000 Toyota and Lexus vehicles (2023-2025 models including RAV4, Camry, Highlander, Tacoma, Crown Signia, and Lexus RX/TX/LS) recalled for instrument panel displays that go completely blank at startup, preventing drivers from seeing speed, brake warnings, and tire pressure alerts—critical safety information required by federal standards.

Tesla's Multi-System Failures: Over 76,000 Tesla vehicles recalled in October 2025 alone, including 63,000+ Cybertrucks for excessively bright front parking lights that impair oncoming drivers, and nearly 13,000 Model 3 (2025) and Model Y (2026) vehicles for battery pack contactors that suddenly fail, causing complete loss of drive power while driving.

"We're witnessing the worst automotive safety crisis in recent history," said a spokesperson for Consumer Protection Law Group. "These aren't minor software glitches—Ford's cameras have

been failing for years despite multiple recall attempts, Toyota's dashboards go completely dark leaving drivers blind to critical warnings, and Tesla's batteries are suddenly cutting power. When manufacturers can't fix these problems after multiple attempts, federal and state lemon laws provide powerful protections."

When Recalls Become Lemon Law Cases

Many consumers don't realize that recalled vehicles experiencing continued problems after repair attempts may qualify for full lemon law protections, including vehicle buybacks or replacements. CPLG specializes in cases where:

- Recalled safety systems continue to malfunction after dealer "repairs"
- Multiple recall repair attempts fail to resolve the underlying defect
- Vehicles remain unsafe to drive despite manufacturer recall remedies
- Manufacturers delay or inadequately address critical safety recalls

The Numbers Behind the Crisis

8.5 million vehicles recalled in Q3 2025, a 16% increase from Q2

- Ford leads all manufacturers with 5+ million vehicles recalled in Q3 alone
- 87.5% of Q3 recalls involve crash and/or injury risk
- 19.3 million vehicles recalled year-to-date in 2025
- CPLG has successfully resolved over 3,900 cases nationwide

CPLG's Strategic Response Initiative

The firm's enhanced services specifically address current recall-related challenges:

- Emergency Recall-Lemon Integration Analysis: Rapid assessment connecting current safety recalls to potential lemon law claims
- 48-Hour Case Evaluation: Expedited review for urgent safety cases
- Critical Safety Defect Priority Processing: Fast-track handling for Ford camera, Toyota dashboard, and Tesla power loss recalls
- Zero-Cost Representation: All legal fees pursued directly from manufacturers, never from clients

Taking Action During the Crisis

Vehicle owners concerned about current recalls or persistent defects can access CPLG's services:

- [Free Case Review](#): Available at 247LemonLaw.com with same-day response
- VIN-Based Recall Cross-Check: Comprehensive analysis linking vehicle problems to existing recalls
- 24/7 Availability: Round-the-clock access to legal consultation
- Zero Out-of-Pocket Costs: Manufacturers pay all legal fees

About Consumer Protection Law Group

Consumer Protection Law Group is a nationwide law firm specializing in lemon law, automotive fraud, and consumer protection. Led by attorneys Sam Mollaei, Hamid Kohan, Kevin Jacobson,

and Jonathan Shirian, CPLG operates 24/7 from Phoenix, Arizona, representing clients across all 50 states under federal and state lemon laws. With over 3,900 successful cases resolved, the firm is committed to holding manufacturers accountable when they fail to deliver safe, reliable vehicles.
