

Minervate Elevates Global Clinical Research with AI-Powered Compliance Tools at Web Summit 2025

Showcasing its next-generation electronic data capture (EDC) and GxP compliance solutions.

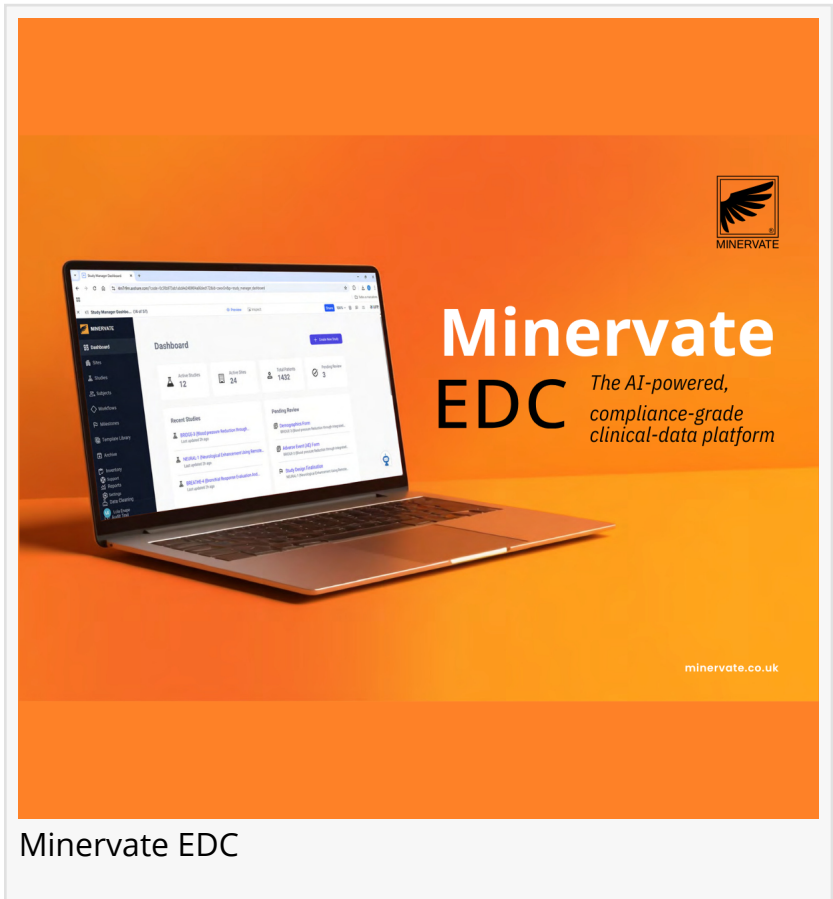

LONDON, UNITED KINGDOM, November 8, 2025 /EINPresswire.com/ -- Minervate Ltd., a London-based healthtech and regulatory compliance company, will be spotlighted at Web Summit 2025 as an Impact StartUp, recognized for advancing ethical, AI-enabled transformation in clinical trials and pharmaceutical compliance.

With a foundation built on GxP excellence, innovation, and diversity, Minervate is redefining how pharmaceutical, biotech, and clinical research organizations accelerate drug development—ensuring quality, safety, and accessibility for patients worldwide.

“Minervate stands for innovation with integrity,” said Lola Enape, Founder and CEO of Minervate. “Our mission is to harmonize technology and compliance so that every scientific advancement is both ethical and impactful. At Web Summit, we’re proud to show how AI can empower life sciences organizations to move faster without compromising quality.”

Driving Excellence in GxP and Regulatory Innovation

Founded in 2017, Minervate has established itself as a globally trusted partner in GxP compliance and regulatory technology, delivering solutions that align with international standards including MHRA, FDA, EMA, Health Canada, and ANVISA.

A promotional graphic for Minervate EDC. It features a laptop displaying the Minervate EDC dashboard, which includes sections for 'Dashboard', 'Recent Studies', and 'Pending Review'. The background is a solid orange color. In the top right corner, there is a Minervate logo (a stylized bird icon) and the text 'MINERVATE'. Below the logo, the text 'Minervate EDC' is prominently displayed in white, followed by the tagline 'The AI-powered, compliance-grade clinical-data platform'. In the bottom right corner, the website 'minervate.co.uk' is visible.

Minervate EDC

The company's expertise spans across five core areas:

Regulatory & GxP Compliance: Comprehensive documentation, inspection readiness, SOP development, CAPA management, and risk-based auditing.

[Quality Assurance](#) for Clinical Trials: Promoting ethical protocol adherence, data integrity, and audit readiness across multi-site and global studies.

Technological Innovation: Development of AI-enabled, compliance-grade clinical trial data platforms that support remote, hybrid, and on-site trial management.

Diversity in Scientific Leadership: A woman-led organization driven by diverse subject matter experts advocating inclusion and ethical advancement in life sciences.

Patient-Centric Mission: Dedicated to ensuring faster, safer, and more inclusive access to life-saving therapies.

Showcasing at Web Summit 2025

At Web Summit 2025, Minervate will present its latest AI-enabled, compliance-grade clinical trials data SaaS platform — a next-generation solution engineered to revolutionize how trials are conducted and monitored globally.

The platform is designed to:

Accelerate drug discovery by analyzing clinical and scientific data at scale.

Ensure safety, quality, and regulatory compliance throughout the trial lifecycle.

Integrate eCRF, eConsent, and real-time data management tools to enhance efficiency and patient outcomes.

By automating GxP documentation, streamlining multi-site trial management, and generating data-driven insights, Minervate's system enables sponsors, CROs, and biotech firms to reduce time-to-market while maintaining the highest standards of integrity and compliance.

Innovation, Impact, and Inclusion

□ Innovation in HealthTech

Minervate's proprietary AI algorithms enhance decision-making, streamline workflows, and ensure compliance in accordance with evolving regulatory frameworks.

▣ Real-World Impact

The company is trusted by global pharmaceutical and biotech leaders for implementing advanced quality systems, audit programs, and regulatory automation.

▣▣▣ Diverse Leadership

Under the leadership of FemTech champion Lola Enape, Minervate combines over 25 years of collective expertise in clinical operations, regulatory affairs, and data analytics. The team's commitment to diversity continues to drive innovation in digital health and compliance.

▣ Recognized Excellence

Selected as a Web Summit 2025 Impact StartUp, Minervate is acknowledged for pioneering ethical AI and clinical data transformation, shaping the future of healthtech innovation.
