

MEPSKING Launches the VINE VOICE Program to Empower FPV Community with Real User Feedback

MEPSKING introduces a transparent, community-driven initiative to encourage authentic product reviews and enhance FPV innovation.

NY, UNITED STATES, November 7, 2025 /EINPresswire.com/ -- [MEPSKING](#), a leading FPV drone shop owned by Nanchang Sanrui Intelligent Technology Co., Ltd., has officially launched its [VINE VOICE Program](#) this November. The long-term initiative aims to engage FPV enthusiasts worldwide by inviting them to try MEPSKING's products, share real flight feedback, and contribute to the development of next-generation FPV technology.

1. Empowering FPV Pilots Through Real Feedback

The VINE VOICE Program strengthens MEPSKING's connection with the global FPV community by transforming users into active contributors. Pilots are invited to test products in real flight conditions, provide genuine feedback, and suggest improvements based on their flying experience.

This valuable input not only helps MEPSKING refine the performance, durability, and reliability of its products, but also supports the company's broader mission—to co-create innovative FPV solutions that align with what real pilots need in the air.

The initiative highlights MEPSKING's belief that innovation in FPV must be driven by the community itself, not just by manufacturers. By listening to pilots' voices, the company and its

mepsking vine voice program

partner brands—such as MEPS and T-Hobby—aim to close the gap between user expectations and product design, ultimately improving the entire FPV ecosystem.

“The FPV community thrives on collaboration, creativity, and constant improvement,” said a MEPSKING spokesperson. “Through the VINE VOICE Program, we’re creating a direct bridge between pilots and product developers, ensuring that future FPV gear is inspired by real experience, real needs, and real flight data.”

2. Exclusive Benefits for M+ Members

The VINE VOICE program is exclusively available to MEPSKING M+ Members.

For a one-time fee of \$2.99, members gain access to six exclusive privileges:

- Three free lucky draw entries featuring [FPV motors](#), ESCs, flight controllers, propellers, and batteries
- A \$48 coupon pack
- A 15% off sitewide discount coupon
- Free worldwide shipping
- Complimentary gifts
- Double reward points

Each draw is conducted live using a transparent physical lottery machine, and every session is streamed publicly for full transparency. Results are determined completely at random, ensuring fairness for all participants.

Beyond prizes, all M+ Members enjoy continuous membership benefits, providing lasting value even after the draws conclude.

3. How the Program Works

Joining and participating is simple:

- Register as an M+ Member on the MEPSKING website.
- Access the VINE VOICE page and enter the lucky draw.
- Receive a unique participation number for each draw.
- Watch the live broadcast or view the results later under “My Activities.”
- Claim any prize within seven days of winning.
- Test and review the awarded product within 30 days, submitting detailed feedback in text, photo, or video form.

Participants who submit verified reviews receive the VINE VOICE badge, marking them as trusted contributors. Selected reviews are highlighted on product pages, helping other FPV enthusiasts make informed decisions.

Members can also gain extra draw chances by inviting friends to join, creating a collaborative environment that grows the community while offering additional opportunities to win.

Beyond the prizes, all participants enjoy lasting member benefits—ensuring real value for every FPV pilot, whether or not they win a draw.

4. Fairness, Quality, and Transparency

Every aspect of the program is designed around fairness and integrity. The draws are publicly live-streamed, each result is generated randomly, and the entire process is open for verification. Winners are announced live and notified by email and personal dashboard.

All prizes are brand-new and genuine, sourced directly from MEPSKING’s official warehouses. Shipping is free worldwide, and MEPSKING guarantees free replacements for any damaged or lost shipments.

To protect user privacy, only anonymized information (such as username or partially masked email) is displayed during announcements. Personal details like addresses and phone numbers remain strictly confidential.

5. Encouraging Genuine Reviews and Open Innovation

The long-term goal is to make VINE VOICE a core benefit of the M+ membership, with regular draws, continuous engagement, and more opportunities for pilots to test, review, and influence the products shaping the FPV future.

The VINE VOICE Program extends beyond product giveaways. It serves as a collaborative channel where pilots can share opinions, report performance insights, and recommend desired features

for upcoming FPV products.

Feedback collected through this initiative will guide MEPSKING's R&D process, ensuring new designs align with real-world flight behavior and user preferences. By combining technical expertise with pilot experience, the company aims to push FPV product development toward greater precision, power efficiency, and flight comfort.

Furthermore, participants who actively engage with reviews and product discussions can influence prototype testing, beta releases, and future community trials—turning MEPSKING's customers into partners in innovation.

This initiative not only benefits MEPSKING but also provides value to the entire FPV ecosystem, enabling faster iteration, higher quality, and greater product diversity.

6. Driving Community Growth and Global Connectivity

The long-term vision of VINE VOICE is to establish an interactive, sustainable community model that connects FPV pilots, engineers, and brands worldwide. Through open communication and shared experiences, MEPSKING aims to strengthen trust, inspire creativity, and encourage more people to explore the excitement of FPV flight.

The program also aligns with MEPSKING's sustainability philosophy. By promoting durable and high-performance products through real user feedback, the company reduces waste and contributes to a more efficient and responsible FPV industry.

7. About MEPSKING

Nanchang Sanrui Intelligent Technology Co., Ltd., founded in 2009 in Jiangxi, China, is a high-tech enterprise specializing in UAV propulsion systems and intelligent control solutions. Its technologies serve multiple industries, including film, agriculture, mapping, logistics, public security, and energy inspection. With over 16 years of technical expertise, Sanrui has established several trusted brands in the drone industry, among which MEPSKING stands out as a key global brand.

Launched in 2022, MEPSKING.SHOP is a global FPV platform offering a complete range of drone components—from motors and ESCs to flight controllers and accessories to the FPV communities from all over the world. Positioned as a High-Quality FPV shop, MEPSKING provides high-quality, high-value products supported by professional expertise and reliable customer service.

Driven by sustainability, MEPSKING is committed to developing durable, energy-efficient drone products that reduce waste and environmental impact, supporting a greener and more innovative FPV ecosystem.
